No . . MOB-32/Billing –WiMax/2010/ 128

Dated: 16th October 2012

To

Chief General Manager
All Telecom Circle

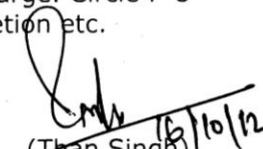

Subject: Guidelines regarding Provisioning & Billing of VPN over WiMAX.

WiMAX billing has been migrated to CMTS B&CCS and is working successfully in all four zones. However, VPN over WiMAX has not been migrated to the GSM B&CCS due to technical limitations and still continues to be working on legacy systems.

2. In this regard, looking at the technical limitation and the fact that all India VPN would be possible only if the VPN is created over P3 system (CMTS B&CCs are zonal systems), it has been decided that rating & billing of VPN over WiMAX may continue to work on P3 system, but issuance of bills to subscribers, payment receipt & accounting will be done on CMTS B&CCS. Procedure to be followed will be as given below:-

- a) Customer will approach the nearest CSC/ CSR (CMTS B&CCS). Requests for VPN over WiMAX will be captured in CSR terminal.
- b) Captured requests will automatically flow to the WiMAX Circle Node-In charge responsible for creation of Domain/Child user in the legacy P-3 Portal i.e data.bsnl.in. He/ She will create VPN over WiMAX by filling all technical parameter like Vendor info, CPE infor, port details etc. in the P-3 portal.
- c) Rating & Billing will be done at P-3 system only and feed file will be generated by it. These feedfiles will be sent within 48 hours of bill generation through FTP to the respective Zonal B&CCS for issuance of bills to subscribers, payment receipt & accounting.
- d) List for disconnections & restorations will be generated by Accounts Team of CMTS B&CCS and will be uploaded for viewing and action by Circle P-3 Nodal in-charge. Circle P-3 Nodal In-charge will ensure timely creation, disconnection, restoration & deletion etc.

This issues with the approval of GM (VAS).
