# **BSNL's VISION**

## **Transforming BSNL – Customer Oriented and Profitable**

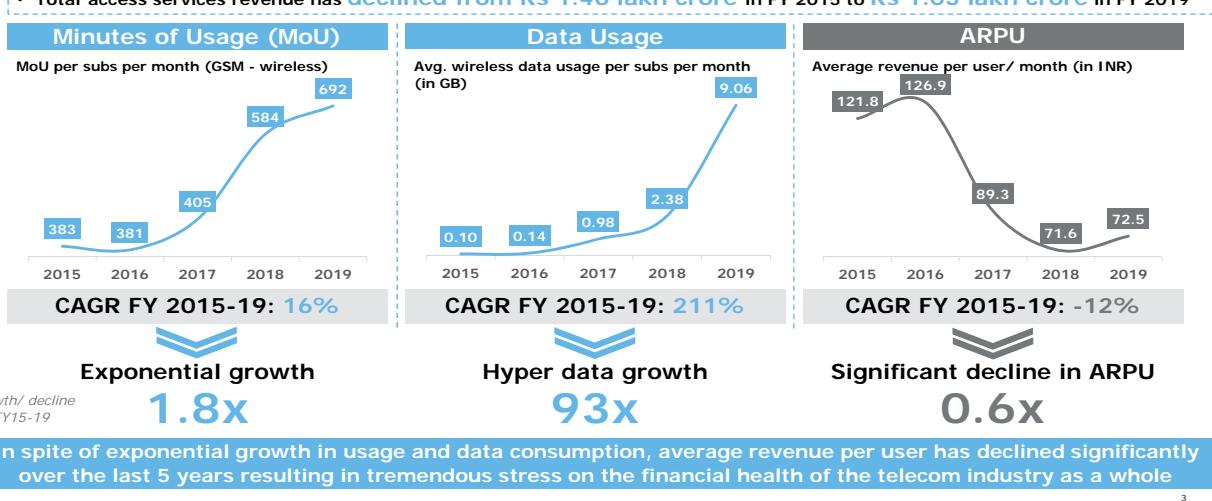

**13 February 2020**

**"I dream of a digital India where High-speed  
Digital Highways unite the Nation"**

– The Honorable Prime Minister, Shri Narendra Modi

The Indian Telecom industry is subject to a dichotomy of increasing usage and penetration and reducing revenues which require higher investments

- Total wireline and wireless telecom subscriber base has increased from 99.6 Crore in FY 2015 to reach 118.4 crore subscribers in FY 2019
- Total access services revenue has declined from Rs 1.46 lakh crore in FY 2015 to Rs 1.03 lakh crore in FY 2019

BSNL has also witnessed steep drop in revenue, stagnating costs and resultant drop in EBITDA

All numbers in thousand crores

Parameters	2007-08	2008-09	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19
Total Income	38	36	32	30	28	27	28	29	32	32	25	19
Expenditure (excluding Finance Cost and Depreciation)	23	25	25	26	27	26	29	28	29	30	28	28
Operational Profit (EBITDA)	15	11	7	4	1	1	-1	1	3	2	-3	-9
Gross Profit(EBIT)	5	2	-2	-6	-8	-7	-7	-8	-4	-5	-9	-14
Net Profit	3	1	-2	-6	-9	-8	-7	-8	-5	-5	-8	-15
Man power (No. of employees in lakhs)	3.08	3	2.92	2.82	2.68	2.52	2.38	2.26	2.11	1.96	1.84	1.67
Wage bill	8.8	11.3	13.5	13.8	13.4	13.8	15.4	15.0	15.4	15.7	14.8	14.3

Primarily because of the following

Hyper competition – well funded new entrants

Shift from voice to data – BSNL 4G launch not in time

Lowest spectrum bank

High employee costs

Legacy network – higher OPEX

Liquidity – lower network investments

BSNL has 14% of total spectrum bank in the market – limits ability to rapidly grow mobility business especially in 4G efficient bands

Operator	850 MHz	900 MHz	1800 MHz	2100 MHz	2300 MHz	2500 MHz	TOTAL MHz
Bharti Airtel + Tata	11.25	116.40	283.05	170.00	570.00	-	1,150.70
Vodafone - Idea	-	141.60	393.25	200.00	30.00	370.00	1,134.85
RJIO + Rcom	202.75	10.00	148.80	65.00	600.00	-	1,026.55
BSNL	-	138.20	51.20	100.00	-	280.00	569.40
Aircel	-	13.20	74.60	65.00	-	-	152.80
Total	214.00	419.40	947.10	610.00	1,200.00	650.00	4,040.50
BSNL holding - % of total	0%	33%	5%	17%	0%	43%	14%

5

BSNL has lagged other operators in investments in Capital Assets (largely network investments)

Telecom Operator	2015-16	2016-17	2017-18	2018-19
Gross block – Jio Infocomm (Rs. in '000 Cr.)	-	1	160	203
Gross block - Jio Infocomm - % change over previous year	-	-	15900%	27%
Gross block - Airtel (Rs. in '000 Cr.)	146	176	199	222
Gross block - Airtel - % change over previous year	-	21%	13%	12%
Gross block - BSNL (Rs. in '000 Cr.)	237	241	242	245
Gross block - BSNL % change over previous year	-	2%	0.4%	1%

Inability to invest in time places BSNL at a competitive disadvantage to other operators - in terms of:

- Losing market share
- Losing new revenue potential
- Customer dissatisfaction due to network quality issues
- High operating cost due to legacy infrastructure

6

Government of India has supported BSNL in the form of a historic revival package

**Employee voluntary retirement scheme (VRS)** – approximately 78,500 optees → **Savings worth Rs. 7,200 Crores per annum** in wage bill

**Administrative allocation of spectrum for 4G** worth Rs. 14,115 Crores and GST on spectrum of Rs. 2,541 Crores → **PAN India 4G coverage** – opportunity to address customer needs and enhance revenue

**Monetization – of land/building assets and other assets** worth Rs. 20,200 Crores → **Liquidity** - availability of capital to fund investments, growth as well as debt reduction

**Sovereign guarantee bonds** worth Rs. 8,500 Crores for the purpose of debt restructuring → **Strengthening of balance sheet** – Reduction of finance cost and rescheduling of debt repayments

7

BSNL has already embarked on key steps to address challenges and take advantage of opportunities

#### **Stabilization of network post VRS**

- SLA based outsourcing in O&M for Pillar – Customer premises and for transmission fiber in select regions
- Merging Project & Maintenance circles – augment Fiber O&M workforce
- Closure of low utilization exchanges
- Localization of CFA, Tx and CM nodes - common room at exchange sites to centralize power plant and other passive equipment
- Remote monitoring - Linking of all rural exchanges to CFA core, extension of passive infrastructure to main exchanges
- Revenue sharing partnership model for FTTH (Fibre to the Home)

#### **Network expansion and upgrade**

- Introduction of 4G services at select locations on existing 3G spectrum – 8,116 sites live
- Increasing 3G footprint for growth in data
- Focus on BharatFibre FTTH customer base growth through channel partners (3105 Partner OLTS working and 4.08 Lakh Gross FTTH connections added in 18-19)
- Launch of Bharat Air Fiber

#### **Customer service**

- Outsourced call center contracts refreshed – services in English, Hindi and vernacular languages to serve customers
- Simplifying processes through digital engagement for payments and grievance redressal

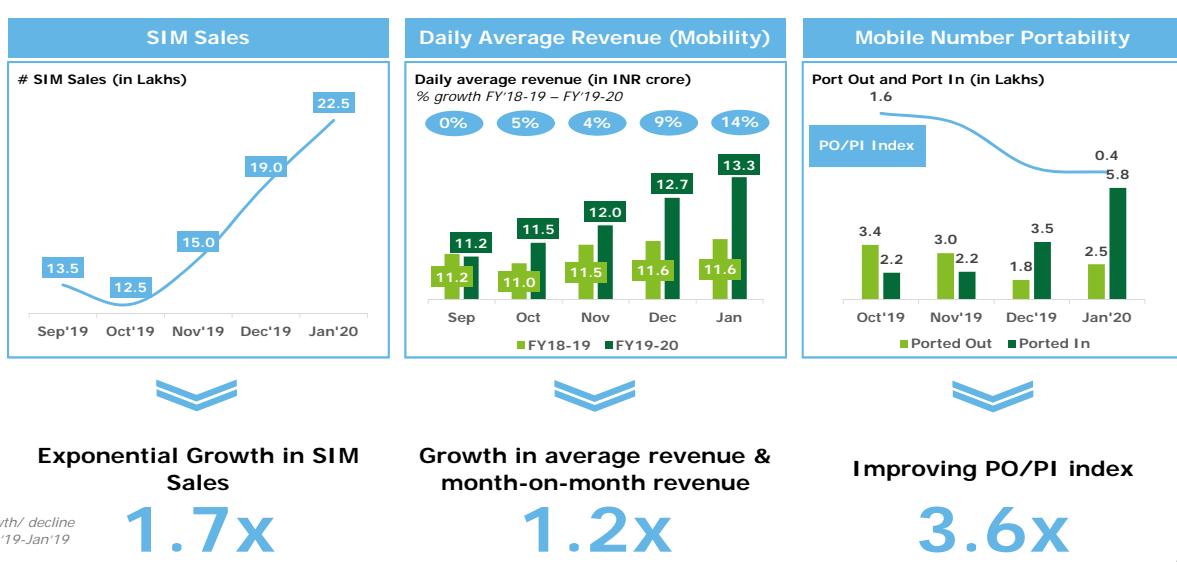

8

BSNL has already embarked on key steps to address challenges and take advantage of opportunities (Contd...)

 <p><b>Revenue Growth and Resource enhancement</b></p>	<ul style="list-style-type: none"> <li>• <b>Renting and leasing</b> of built up spaces and tower + fiber assets</li> <li>• <b>Monetization of underutilized</b> land assets</li> <li>• Quick <b>monetization of scrapped assets</b></li> <li>• <b>Tariff plan redesign</b> - Unlimited voice calls, higher data limits etc. and moderate tariff increases (aligned to market developments)</li> <li>• <b>Increased focus on sales and marketing</b></li> <li>• <b>Tie - ups with Over-the-Top (OTT) content providers</b> to drive data consumption</li> <li>• <b>Increased focus on B2B Enterprise play:</b> <ul style="list-style-type: none"> <li>• Diversification in Smart Cities, ICT/ IoT related projects</li> <li>• Aggressive <b>focus</b> on customers with high bandwidth utilization (&gt; 75%)</li> <li>• <b>M2M boost in auto sector</b> – more than 4 lakh SIMs activated</li> </ul> </li> </ul>
 <p><b>Cost Optimization</b></p>	<ul style="list-style-type: none"> <li>• <b>Site/ network optimization (traffic-based)</b> <ul style="list-style-type: none"> <li>• BTS optimization and re-location to high traffic zones</li> <li>• Decommissioning legacy core equipment</li> </ul> </li> <li>• <b>Specific initiatives for high-cost areas</b> <ul style="list-style-type: none"> <li>• Power cost optimization</li> <li>• Renting, security, other manpower contracts rationalization</li> </ul> </li> <li>• <b>Organization-wide project to reduce OpEx</b></li> </ul>

9

The initiatives we have taken have yielded results over the past 4-5 months – SIM sales and daily average is rising and net port ins from other operators on the rise

10

BSNL's agenda for future is centered around 3 pillars

Technology / Network	Customer	Partnership & Collaboration	
 Leveraged 4G   Fiber first   Network optimization   Data analytics based networks	 Improved Network QoS, competitive difference and readiness for future technologies	 Customer first  Personalized experience  Omni channel  Process simplification with IT enabled processes for enhanced delivery	 Immersive and relevant experience through OTT  Last mile partnership  Digital service ecosystem- M2M/IoT  ICT partnership to become integrated solutions provider

11

Against this agenda, we have set ourselves 6 aspirational goals

 Target for market share enhancement – 12% (2 years) & 15% (5 years)	 Annual revenue enhancement by 8-10% over the next 2 fiscal years
 Expand 4G services, strengthen core network, NGN migration and upgrade technology	 EBITDA positive within 2 fiscal years
 Monetization of assets – vacant land and leasing of tower, fiber and built up spaces	 Cost competitiveness – optimization of CAPEX & OPEX

With an objective to transform BSNL into:

- Customer oriented company – across subscriber acquisition, service delivery, experience and retention
- On the basis of industry leading network quality of service

12

Our plan over the next 6-18 months is focused around actionables

#### Technology / Network

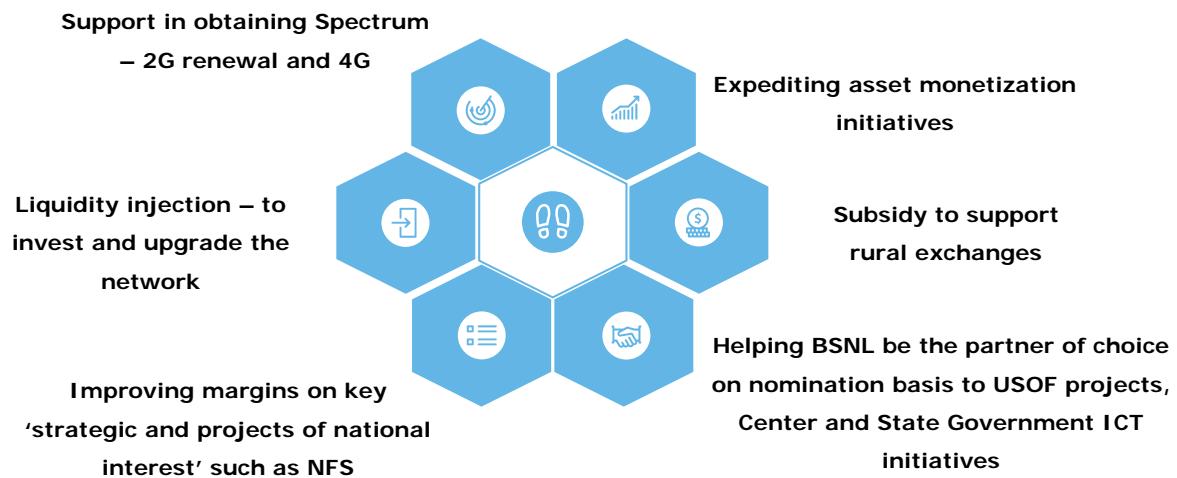

- 4G push - Upgrade 3G network to 4G and launch new sites
  - Upgrade ~ 50K sites to 4G as per phase 8.4 tender
  - Upgrade ~ 33K sites as per phase 9 tender (being floated)
  - New 4G sites ~ 17K sites as per phase 9 tender (being floated)
- 1. Centralize Fibre NOC – efficient network monitoring
- 2. Expand Optical transport
- 3. Utilize BharatNet - high bandwidth services to villages
- 4. Leverage OEM/ service provider partnerships for analytics driven network planning and fault management

#### Customer

- 1. "Go-Near" philosophy for sales, distribution and customer service – KPI and accountability
- 2. Thrust to deliver higher QoS by ensuring higher network uptime and quality
- 3. BSNL app – to be the central focus for customer engagement – tariff, service, bills, payments and content relay
- 4. Simplify product/ tariff
- 5. Simplify and automate internal processes to deliver enhanced customer experience and grievance redressal

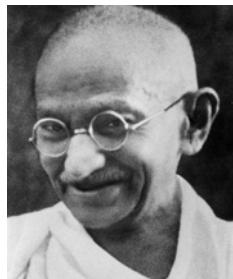

13

Our efforts will be complemented and boosted by support from Government

14

Our message in summary to all BSNL leaders and professionals

*A customer is the most important visitor on our premises.*

*He is not dependent on us. We are dependent on him.*

*He is not an interruption on our work. He is the purpose of it.*

*He is not an outsider on our business. He is part of it.*

*We are not doing him a favour by serving him. He is doing us a favour by giving us an opportunity to do so.*

-- Mahatma Gandhi

# **Bharat Sanchar Nigam Limited**

## **Head of Circles Conference**

### **13-14<sup>th</sup> February 2020**

1

**Warm Welcome to all  
Circle Heads**

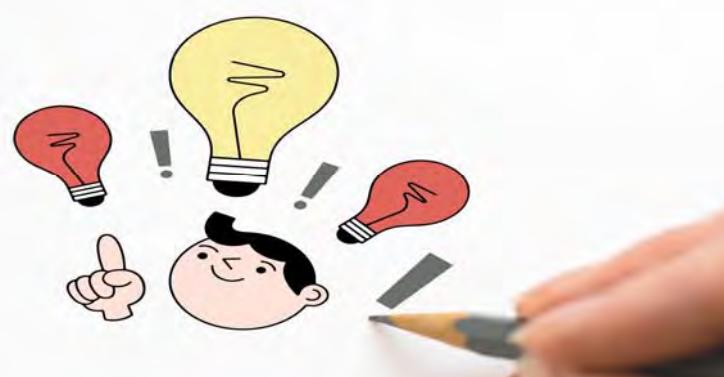

2

**In present circumstances  
BSNL need to focus on**

- Increase the Revenue
- Optimize the Cost

3

## **New Initiatives from Corporate Office**

4

## Initiatives from Corporate have these Primary Objectives

### Important Policy Measures Undertaken

1. BharatFibre Open Policy with Digital Wallet Program
2. BharatAirFibre Open Policy to improve Rural Reach and Cost of Network Maintenance
3. IPTV Policy to improve Data Consumption
4. Customer Access Network Outsourcing Policy
5. Customer Service Center Maintenance Policy

5

## Initiatives from Corporate For Increasing the Revenue

6

## Annual Cashback Scheme

- ❖ Annual subscription increases retention, reduces churn
- ❖ It helps in improving cash flows
- ❖ With introduction of cashback scheme, on average we had **35000 subscriptions on monthly basis** for the annual plan migration
- ❖ 50%+ subscription happened through the online process of plan change (broadband customers) , which is completely paperless
- ❖ **In the year 2019, Pan India customer base on Annual plan has been increased from 2.7 lakh to 7.8 lakh customers**
- ❖ This year , we have **started bill reminders** also through the inbrowsing solution , taking customers directly to payment portal for online payment

7

## Online Plan Change Through In-Browsing Solution

**No Paperwork, Its Just A Click Away !**

8

**5 pe 6 offer**

Worried about the 6 paisa charge?

Now a BSNL customer will not pay but in fact get a 6 paisa cashback\*

Applicable for Landline/Broadband customers from valid till 29<sup>th</sup> February, 2020.

To activate the offer call our toll free number 18005991900 or send SMS ACT[Space]6 to 9478053334

\*Terms & Conditions Apply. Applicable for calls of duration of **5 minutes** & above. Maximum cashback of Rs.50 per month.

BSNL Connecting India

## How Customers Subscribe to 6 Paisa

**Customer Can give missed call on toll free  
18005991900**

**IVR calls to all the eligible customers in DEC & JAN  
for taking acceptances**

**Customer Can Use Self Care Portal**  
<https://bsnl.co.in/6paisa>

**Sending message "ACT[SPACE]6" at 9478053334  
from registered mobile number**

# Bharat Air Fibre

## Fibre Speeds to Rural Home

### { On Air }

25

## BharatAirFibre.. Bringing Smiles to Rural

*Access to cheap and reliable communication – especially telephony and internet – is a self-reinforcing enabler for creation of wealth and higher standard of living*

*World Bank*

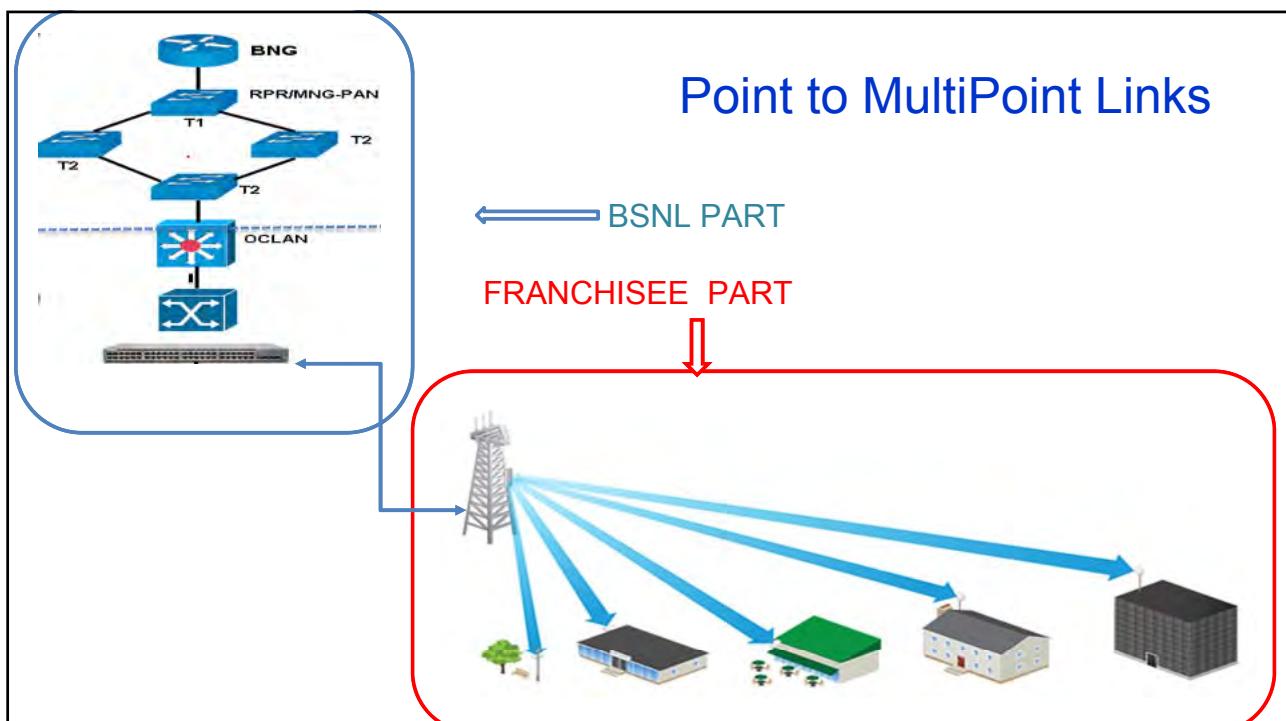

**We, at BSNL, have developed an  
affordable and sustainable Methodology of  
connecting the unconnected**

26

## Govt of India's New Wi-fi Policy

### Total Spectrum

- From only 50 MHz to 605 MHz total usable unlicensed band spectrum in 5GHz
- Easily supports long range up to 10 km+ links for Rural areas
- Doubles the potential capacity on Radio
- Now supports 80 MHz channels for **700 Mbps** speeds
- **1.5 Gbps aggregate speeds possible with 2 x 80 MHz channel aggregation**

## BharatAirFibre Policy Highlights

- Its an Open Policy for Partner Engagement for rollout of Radio Broadband services in the network , special emphasis on Rural Network
- There are fixed incentive based on customer tariff plan , having higher incentive for higher tariff
- Incentive to the partner shall be paid through the Digital Wallet, on realtime basis
- Each SSA has been given the target to cover TWENTY locations by 31<sup>st</sup> March 2020.

Tariff plan With FMC ( Excluding GST) (Rs)	Per connection fixed amount to channel partner (Rs)	Per connection share to BSNL (Rs)		Rural incentive* to channel partner (Rs)

# **Customer Access Network**

## **Partners to Serve the Last Mile**

31

### **Outsourcing Model**

Policy on outsourcing model for Maintenance and provisioning of Landline & Broadband for External plant of Copper Network issued

External Plant Network is divided in two type :

- 1. Local Access Network : MDF to Last pillar**
- 2. Customer Access Network : Last pillar to Customer Premise**

This outsourcing policy is issued for Customer Access Network for Urban and Semi urban area.

## **Observations of Field unit on Outsourced Customer Access Management**

- FINAL TESTING which is being currently routed to clarity after being cleared through FMS should be avoided. This stage also should be cleared from FMS itself. – **Implemented in FMS**
- Faults pertaining to BSNL can be routed to clarity from FMS currently. But no method observed as of now to Re-route the same fault from clarity to FMS.– **Implemented in FMS**
- FMS should extend following roles to franchisee :
  - SNR/Line testing (Both NGN-NON-NGN switches) for primary diagnosis of fault.
  - Line test search parameter should be both : Telephone number/ User ID.
  - Port reset

**Implemented through TEEVRA app( part of FMS)**

## **Observations of Field unit on Outsourced Customer Access Management**

- Though the CUSTOMER PROFILE Search section has good length of information, but some more details like , PILLAR Name, MDF Vertical should be populated. - Implemented , Access to CRM and Clarity given
- As per feedback received from business partners, MDF VERTICAL,MDF NAME, PILLAR LOCATION DETAILS, BB Username (If exist) also should be included in excel sheet of fault details. – Implemented, Access to CRM and Clarity given
- Lease circuits on copper are yet to be routed in FMS. – to be Implemented

## Mean Time to Restore Customer Confidence in Quality

Teevra App  
Bringing Smiles to Customers

39

### What we do in Proactive Monitoring

- Health check of DSLAM's via EMS and proactively inform to Circle/SSA team on the anomaly observed.
- Anomaly can be anything related to Hardware/TX media/Power issues.
- BSNL NOC team is following up with Circle Coordinators and Telecom Region teams for early restorations.
- BBNW team also will alert on the DSLAM Hardware issues, OEM experts will work on restoring the system remotely, if not – OEM team will initiate repair/replace process immediately.
- Daily reports are being shared with Circle team on pending action items.

40

## MTTR and Fault Rate Online Port Resetting

Feature Introduced in CDR system to automate the **port reset job on the DSLAM** which has been conventionally done manually by proactive circle

This has helped in reducing the fault rate

41

## MTTR and Fault Rate Online Cable Cut Alerts

- Feature Introduced in CDR system to automate the **Cable Health Test Through Sample Pair on Each Pillar being proactively tested for any Cable Cuts** which conventionally has been a very reactive and time taking process
- Now CDR system has created one Auto-Test Number order for each pillar, which will be used by system for auto testing on each pillar. System will generate SMS and Email alerts, as and when the auto-test process detects a cable cut.
- All Circle / SSAs have to complete the test orders by extending physical loop to primary cable pair in every pillar, this exercise to be completed in all SSAs by 28<sup>th</sup> February , 2020

42

## Open Policy for Wifi Partner

### Retail Wifi

- It's a PDO model for enabling a network of Wifi Resellers similar to the PCO model in the market
- Partner has to invest in setting up the Hotspot, which shall be connected on BSNL GPON / FTTH network (**a capex of Rs 10-15K only**)
- Customers will buy Wifi Recharge through partner hotspot and online incentive shall be given to the Wifi Partner

61

## Open Policy for Wifi Partner

### Enterprise Wifi

- It's a partnership model where the partner has to invest in setting up of hotspots , and WLC shall be integrated by OEM with BSNL's WAG and Wifi Core Network
- Partner will maintain the Wifi Access Points and get Rev Share
- With this the partners need to focus more on getting Business rather than Establishing the Infrastructure and Investments.

## BREATH Rollout Status

### BREATH (BSNL Revenue Expenditure Analysis, Tracking and Harnessing)

Analyzer was developed by Maharashtra Circle for Expenditure-revenue analysis. This application is being used in Maharashtra Circle to analyze exchange wise and BTS wise financial performance of existing assets.

Now, ITPC has extended this portal on PAN India basis. ITPC has shared a [template](#) for capturing the master data, and the same is available in the BREATH Portal.

**Objective** – Revenue (**automatically picked up from CDR System and IN platform**) and Expenditure (**info to be correlated with ERP system**) Analysis of Each Exchange and BTS location to have better orientation of sales and marketing activities

**URL** [www.breath.bsnl.co.in](http://www.breath.bsnl.co.in).

Bharat *instaPay*

**Sunday ho Ya Monday..Its ALL Online**

82

## Current Challenges in CTOP/CBP Stock Purchase

- Every SSA has typically 2-3 people involved in handling the CTOP and other wallet purchase transactions, with VRS implemented the manual processes need refinement
- Existing manual process of Cheque / RTGS has reconciliation problems which are time consuming
- Franchisee/DSA to send the amount to and wait for confirmations before the stock transfer happens, this definitely impacts business
- Sundays and holidays are bigger challenges when people are not available for doing ERP transactions for stock transfer

83

## Bharat InstaPay..Everything Online

Simple Process for Purchase of **BSNL Prepaid CTOP and CBP, FTTH**

- One time Registration: Visit <http://instaPay.bsnl.in> and register CTOP number and ERP Customer ID
- InstaPay Portal will validate user with CTOP Data and allot a **Dedicated ACCOUNT NUMBER** for each Franchisee/DSA, for doing online money transfer
- Franchisee/DSA has to send the amount to **this Unique and dedicated account number** (DAN) by RTGS/NEFT for Purchase of CTOP/CBP/FTTH
- ERP System, SBI Virtual Account System, BSNL Portal, Pyro System for wallets, **ALL have been Integrated for Auto-Transfer** of required Stock/ Currency to master SIM/number

## Bharat AirFiber – Fiber Speeds to Rural Home (On Air)

13 February 2020

### Key Benefits of GoI's policy in Unlicensed Spectrum 5GHz:

1.5 Gbps aggregate speeds possible with 2 x 80 MHz channel aggregation

2

**BharatAirFiber**, a strategic BSNL initiative, leverages the new Wi-Fi policy to provide an affordable, sustainable way to connect the unconnected

### **BharatAirFiber**

- ✓ *Affordable*
- ✓ *Sustainable*
- ✓ *Substitute to copper network in Rural*
- ✓ *Connects the Unconnected*

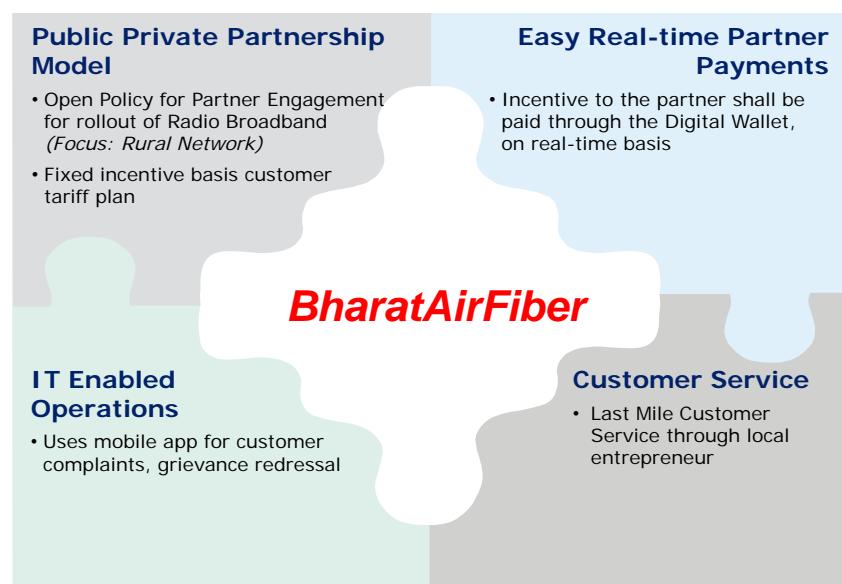

..... *Bringing Smiles to Rural India*

**Access to cheap and reliable communication – especially telephony and internet – is a self-reinforcing enabler for creation of wealth and higher standard of living**

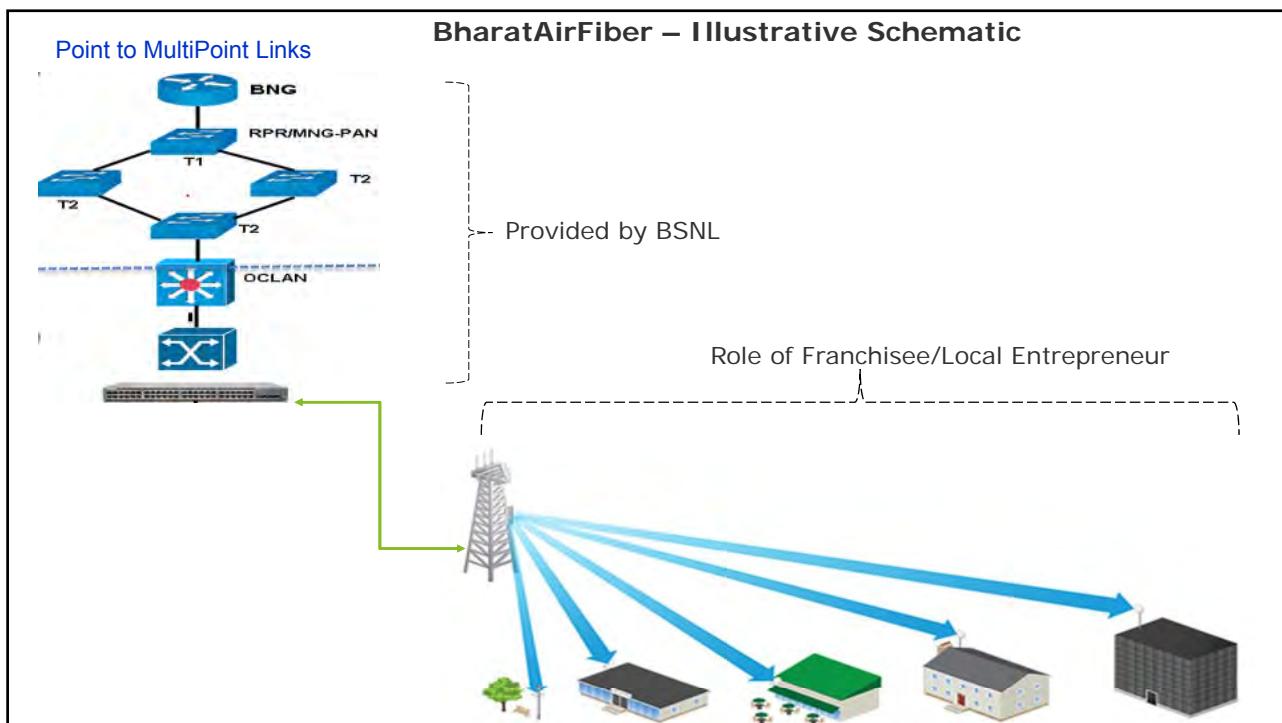

- World Bank

3

**BharatAirFiber**: Is a PPP Model, is IT enabled, promises real-time partner payments and encourages entrepreneurs to provide last mile customer service

4

Bharat Air Fibre

**WELCOME TO LAUNCH OF  
BSNL BHARAT AIRFIBRE SERVICES  
IN STATE OF  
BIHAR, TAMILNADU, KARNATAKA, HARYANA & TELANGANA  
BY**

**Shri Ravi Shankar Prasad**

Hon'ble Minister for Communications,  
Electronics & IT, Law & Justice

**13.02.2020**

# **CM VERTICAL**

# Head of Circles Conference

## Initiatives in last few months

- Daily average IN revenue increased from Rs.11.97 crores in Mar-2019 to Rs.13.29 crores in Jan-2020 i.e. 11% increase.
- Achievement of Mission 2 Million, for the first time in FY2019-20, in Jan-2020 with 2.25 million activations.
- Data consumption crossed 2800 Tb in Feb-2020 from 1795 Tb per day in Mar-2019.
- Reduced incentives for below Rs.100/- FRC.
- Closure of most of the FRCs below Rs.100/- for all Circles.
- Attractive longer duration PVs/STVs launched.
- BREADS (Renamed as RED) scheme launched for retired employees of BSNL.
- Relaxation granted for appointment of retired employees as Franchisee.
- Whatsapp groups have been formed with all GM(S&M) of Circles which in turn have groups with all SSA S&M teams and subsequently SSA teams have groups with retailers.
- Wireless Services Call Centres transitioned to M/s Karvy from M/s Aegis.

## Initiatives in last few months

- Monthly payments of IP vendors were addressed by committing minimum 50% payment.
- Exit notices issued by Airtel and Jio were addressed to some extent.
- Decision taken to remove DG sets and A/Cs on non BSNL single sites and free cooling system allowed.
- Demand generation targets and collection targets along with procedure communicated to all circles for all verticals to strengthen marketing activity.
- Focus on earning and expenditure for each BTS locations.

## Average Per BTS Revenue Vs Expenditure

## Block wise and BTS wise PoS Details

- Block wise and BTS wise PoS details were requested from Circles. This will help us ascertaining that each block and each BTS is covered by appropriate number of PoS.
- Reports received from A&N, BH, CHTD, GJ, HP, HR, JH, KTK, NE1, PB, UPW, UPE, WB Circles/Telecom Districts.
- Other Circles are requested to send the report at the earliest.
- Sample report of Punjab Circle is shown below:

CTOPUP No.	BTS ID	Block	SSA
9464611310	AJD001	AJNALA	AMRITSAR

## Targets for Field Units Ref. DO letter issued on 03.06.2019

S.N.	Designation	Works	Target
1.	SSA Heads	NOFN Works: Expenditure reduction & Revenue earning, Network availability CM/CFA/EB	Network availability, Network optimization, NOFN commissioning, NOFN Fibre, O&M and utilization as per target conveyed. Review of contract demand rationalization for all electricity connections. These items must be reviewed by SSA Head daily and focussed attention be paid for utilization of NOFN Fibre. MTTR & Performance Management System be reviewed. CFA Network optimization for low revenue earning exchanges and review of power plant batteries and other electrical infrastructure items.
2	IFA to SSA Heads	Daily remittance, Project Aishwarya in SSA	As per target fixed by Circle Office. Targets for collection of outstanding dues might have already conveyed by circle office. But now I propose minimum Rs.50,000/ (Fifty thousand only) per day from major SSAs headed by GM/PGM and min. Rs.30,000/ per day from minor SSAs headed by TDMs/Dy.GM excluding EB Revenue.

## Targets for Field Units Ref. DO letter issued on 03.06.2019

3	D.E.(External)	Retention of existing Landline/ Broadband, FTTH Customers, Fault Clearance per day, per week and beyond	Performance Management System must be strictly monitored in the division to ensure targets of MTTR and gross connection for all sub divisions. 90% retention of existing LL/BB/FTTH comes under ICB cases.
4	Sub Division Headed by SDO/JTO	Demand generation for CFA/CM and provisioning of new connections	1 Landline, 1 Broadband, 1 FTTH connection per day or as per target given by Circle. On average, min.10 LL/BB/(Combo) connections and 10 FTTH conn. must be provided by major SSAs headed by GMs/PGMs and 5 LL/BB Combo and Mini 5 FTTH connections be provided by minor SSAs on daily basis. Demand generation of CFA/CM in second half of the day.
5	SDE (Internal)/ PTO (Internal)	NIL CDR cases	Must be pursued to achieve NIL cases under Nil CDR. It is observed that more than 50% Nil CDR cases are due to no. faulty for so many days. The concerned internal exchange incharge must ensure that all individuals under Nil CDR are dialed and tested but if found faulty, must be informed in writing to external incharge for the likely loss of revenue due

## Targets for Field Units Ref. DO letter issued on 03.06.2019

			to disconnection of these numbers as no services are being used by subscribers. Copy should be given to SSA head also for taking necessary action.
6	Phone Mechanic	Maintenance of LL, BB/ installation of new connections and support for Project Aishwarya	Targetted MTTR shall be achieved as already prescribed for each circle and five new connections in a month in each Line Man/ Phone Mechanic section. The concerned field staff is also expected to be utilized for door to door collection and must support collection team.
7	SDE/JTO-CSE In-charge	Retailer visit on Tuesday and Friday alongwith marketing activity	Min. sim sale of 500 per month and LL/BB, FTTH-100 conn. per month. 100% Retailer visit in three months time and 10% POS increase in every month. Any other instructions time to time given by Circle Office/ SSA Office for demand generation and Sale of BSNL product. Every retailer in the jurisdiction of CSC must be mapped with CSC location and a what's app group be created with CSC incharge and retailers. SDE(Mktg) of SSA should also be included.

## Targets for Field Units Ref. DO letter issued on 03.06.2019

8	AO(TR)/JAO(T R)/CAO(TR)	TR related works	Depending upon manpower available, 4-5 TRA team be nominated may be with one member or more in each SSA and the team must visit door to door to collect outstanding dues. One team must visit minimum 10 Sub. Houses with corrected bills and manual receipt book in second half of the day. Minimum 300 notices/legal notices should also be sent in a month. Notices for Telephone Adalat must be delivered by field staff and for Lok Adalat, through courier or departmental vehicle. To arrange minimum 4 Telephone Adalats, 1 Lok Adalat in a month and 90% retention of OGB cases. Telephone Adalat will be organized in different exchanges of SSA and prior notice must be given to subscribers through our own field staff Targets of Project Aishwarya conveyed by the SSA / Circle must be achieved. Here also TRA Officer must ensure 90% OGB Nos. are restored and if after dialing and reminding continuously, no reply/busy tones are found and concluded that the numbers are faulty, inform the concerned external SDE/DE and if again no response, written information be given quoting amount (No. of subscriber x FMC) likely to lose per month.
9	SDE(Trans) / NOFN	Transmission related works	(2) Average MTTR must be less than four hours and individual transmission fault must not increase beyond 8 (eight) hours.

## Targets for Field Units Ref. DO letter issued on 03.06.2019

10	SDE(Mktg)	Marketing related job	To arrange minimum 20 camps per day in major SSAs headed by PGM/GM and minimum 10 Camps in Minor SSAs headed by TDM. Each Camp target is, 25 SIM, 5 LL/BB(Combo), 3 FTTH connections (in case OLT is available), 10 MNP or more conn. through dialing in each SSA to maintain PO/PI ratio less than 0.5. SDE/JTO (Mktg.) must report directly to SSA Head and should have data base for low revenue BTs, potential location in SSA for camps/ canopy. He has to ensure availability of poster/dungler, tariff charges, all paper documents regarding CM/CFA products and umbrella/canopy for camps. Depending on market condition, tariff proposal should be given to Circle. To ensure monthly meeting with Franchisees along with FOS and FOS must give their beat plan to cover all retailers in SSA . Franchisee must explore sale of CFA products through Retailers and to fix up target.
11	DET/SDE/JTO( EB) in SSA	EB marketing, Lead generation and 100% same day fault clearance of EB ccts.	To retain our existing market of EB customers.

## Targets for Field Units Ref. DO letter issued on 03.06.2019

12	<b>PGM/GM (EB) in circle office</b>  <b>IFA to EB vertical in Circle.</b>	To retain existing business and generate new business under Phase I to Phase IV. Big Show rooms depending on staff available.  Outstanding Collection, correction of bills and to provide corrected bills for recovery to different team.	EB Mela to be organized one day in each month and acquire sufficient business for month.  All EB officials in Circle and few officers in SSA should be utilized to cover all EB Consumers and visit to registered companies / factories, big show rooms, colleges, engineering institutions and management institutions.  Min. 15 teams should be nominated company wise and daily visit for revenue collection till all the revenue is collected.
13	<b>GM (Mktg) in Circle Office</b>	PO/PI and IN Revenue. PO/PI has to be less than 0.5.	25% increase in IN revenue as of last year. Propose different STV and FRC as per requirement of your circle to achieve the target.
14.	<b>PGM/GM (CFA) in Circle Office</b>	Outsourcing of FTTH (I) Under Case I, II, III & IV. (II) To convert higher BB plan into FTTH	50% of the target assigned by Circle office through outsourcing in each SSAs.
		wherever feasible to retain customer..	

## Free Cooling Status

Free cooling is proposed in all Non-BSNL BTS sites where DG and AC has been removed.

# Sales & Marketing - CM

14<sup>th</sup> February 2020

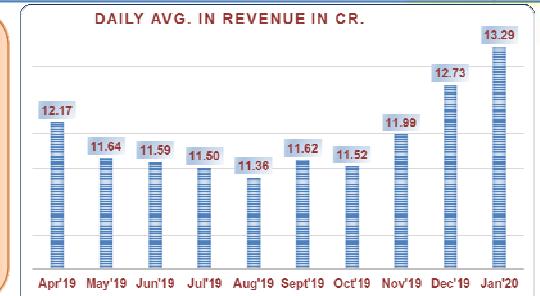

***"If You Are Not Taking Care Of Your Customer,  
Your Competitor Will."***

*– Bob Hooey*

## Disruption in Market: “Hold on to the customer” Strategy adopted to increase market share

Attractive and best in the industry incentive schemes implemented to motivate the channel partners (“our real customers”) to sell BSNL products.

### Marketing:

- Circle must focus on low cost BTL marketing activities.
- Press releases on major initiatives and achievement may also be used.

### Channel Management:

- REDS scheme launched for retired BSNL employees
- Relaxation given for appointment of retired employees as franchisee.

**“Every employee is a sales person  
of the Company”**

### Product Pricing:

- Industry leading tariff plans introduced by BSNL
- PV/STV 97,98,99, 997, 998, 999, 1699 and 1999
- Agreements with Content providers for delivering contents through bundled STVs.

## Sacrosanct Targets

### SIM Sale

### Mission 2 Million

- Utilize REDS scheme and relaxation for appointment of retired employees as franchisee to strengthen channel partner network.
- Energise sales teams to continuously push channel partners to achieve sales targets.
- Capture bulk connections
- Aggressively create perception of BSNL 4G service especially through BTL activities and 4G Sims

### IN Revenue

### IN Revenue Growth over Previous Month

- Promote higher denomination Plan Vouchers/ STVs such as 997, 998, 999, 1699 and 1999
- Utilise CMTS Monthly Bulletin and analysis to increase VLR and promote upselling
- Promote and exploit the potential of new VAS services launched

### PoS Growth

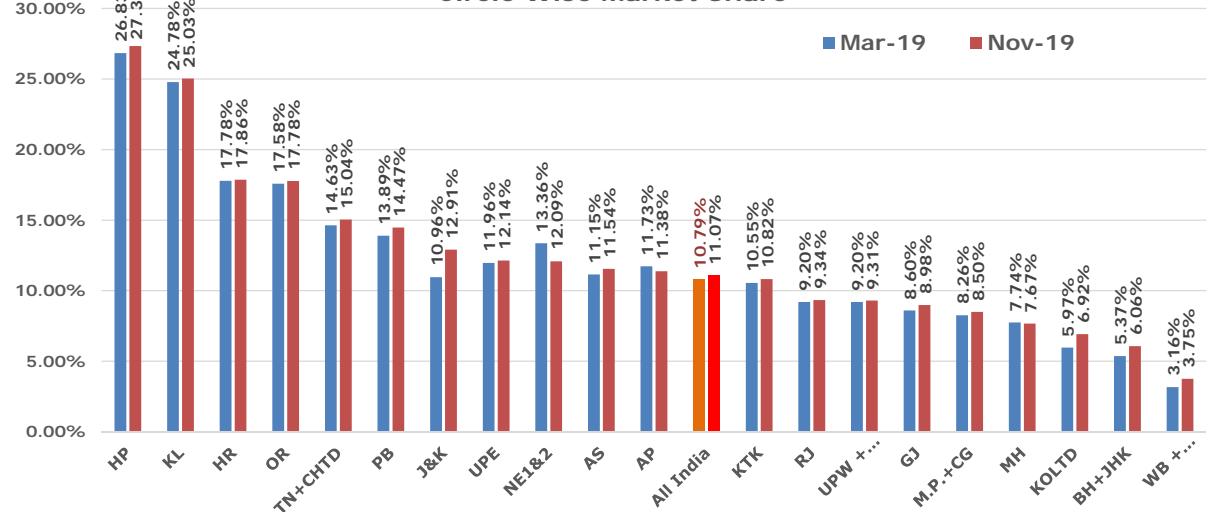

### Addition in PoS and Upgrade over Previous Month

- Go to Retailer Strategy - Regular Retailer visits by CTM (Channel Management Team)
- Emphasis on BTL activities
- Make products available at PoS and educate PoS about Incentive Schemes
- Regular channel partner meetings at Circle/ SSA level

## BSNL Wireless Service Call Centre

- M/s Karvy DigiKonnect Limited is finalized through e-tendering process for BSNL Wireless Service Call Centre (WSCC).
- All 10 WSCCs are operational now and the complete traffic is being handled through these ten WSCCs managed by M/s Karvy Digikonnected Limited.
- CMD, BSNL inaugurated the WSCC at Coimbatore on 08.02.2020.
- Omni-channel customer service experience is envisaged in the present Call Centre including social media.
- Following helplines are served by the WSCC:
  - Inbound customer queries in their own language: 1503
  - Tele verification of new customers: 1507
  - Priority Retailer/franchisee Helpline : 1501
  - DND Helpline : 1909
  - VAS deactivation helpline : 155223

## Use of QR code for entry of SIM information in SIM Activation process

- Circles were requested make arrangement for use of QR code scanning process for entry of SIM information during new SIM card activation process, vide letter no. 39-1/2018-19/S&M-CM/2 dated 06.11.2018
  - Currently BSNL is using the manual process for filling the information like MSIDN number & IMSI number etc. in the software for new SIM activation.
  - Various private operators are adopting the QR (Quick Response) code scanning process for activation of new SIM sale (sample enclosed). In this process SIM information like MSIDN number & IMSI number etc. is fetched directly from the QR code in the software.
  - In a similar manner, QR code for direct download of MyBSNL App may also be provided to subscribers with the new SIM.

## Future Plan for 4G Network Expansion

## Future Plan for Network Expansion

- In the DPR submitted to DoT for allocation of separate 4G spectrum, it was proposed to install 1,00,000 e-Node-Bs (4G nodes).
- After completion of Ph-VIII.4, BSNL will have 83,109 locations where 4G is not available. All these sites are being planned to upgrade to 4G.
- Separately, Phase-IX tender is being floated for procurement of 50,000 nos. 4G sites, out of which around 17,000 will be installed at new locations.
- Readiness of last mile as well as backhaul connectivity will be the most critical factor for success of the project.

## Media Requirement for e-Node-B

- The typical last mile media requirement for each type of 4G site is as below:

Type of site	Last Mile connectivity Requirement	Remarks
4G (5MHz spectrum)	125 Mbps	All such sites where 3G is also working
4G (10MHz spectrum)	250 Mbps	All such sites where 3G is not working
4G TDD sites	300 Mbps	Selective Sites where BW requirement may be comparatively higher in 19 Circles having TDD spectrum

- Circle can start planning and working out the requirement for media augmentation accordingly in consultation with CNP cell. However actual expenditure on this account is to be incurred only after issue of authorisation.

**Sri-Lanka, Mauritius, Canada, France, Iceland, Chile, Singapore, Australia, Kuwait, Malaysia, Israel, Finland, Bhutan, Korea, UAE, China, Japan, Italy, Switzerland, Sweden, Denmark, Austria, Ireland, Indonesia, Bangladesh, UK, Greece, Ukraine, Kazakhstan, New Zealand, Netherland, Turkey, Uzbekistan, Myanmar, Bahrain, Russia**

DISCOUNTED TARIFF- Under Process

**Poland, Norway, Thailand, Afghanistan, Saudi Arabia**

## ROAMING TESTING

Regular SMS need to be sent to BSNL Customers latching in to MTNL Delhi/ Customers facing problems in roaming in MTNL to avail the Option of Vodafone Roaming in Delhi.

## Action Points

### **Free Cooling Implementation**

- Funds have already been allotted in RE 2019-20, BE 2020-2021.
- The progress is very poor

### **Replacement of Life Expired Battery**

- Funds allotted to circles who had scope in tender for procurement in 2019-20.
- Funds Earmarked in BE 2020-21, MC decision for floating tender for next year also conveyed.

## Action Points

### **Biennial Certificate Submission to DoT**

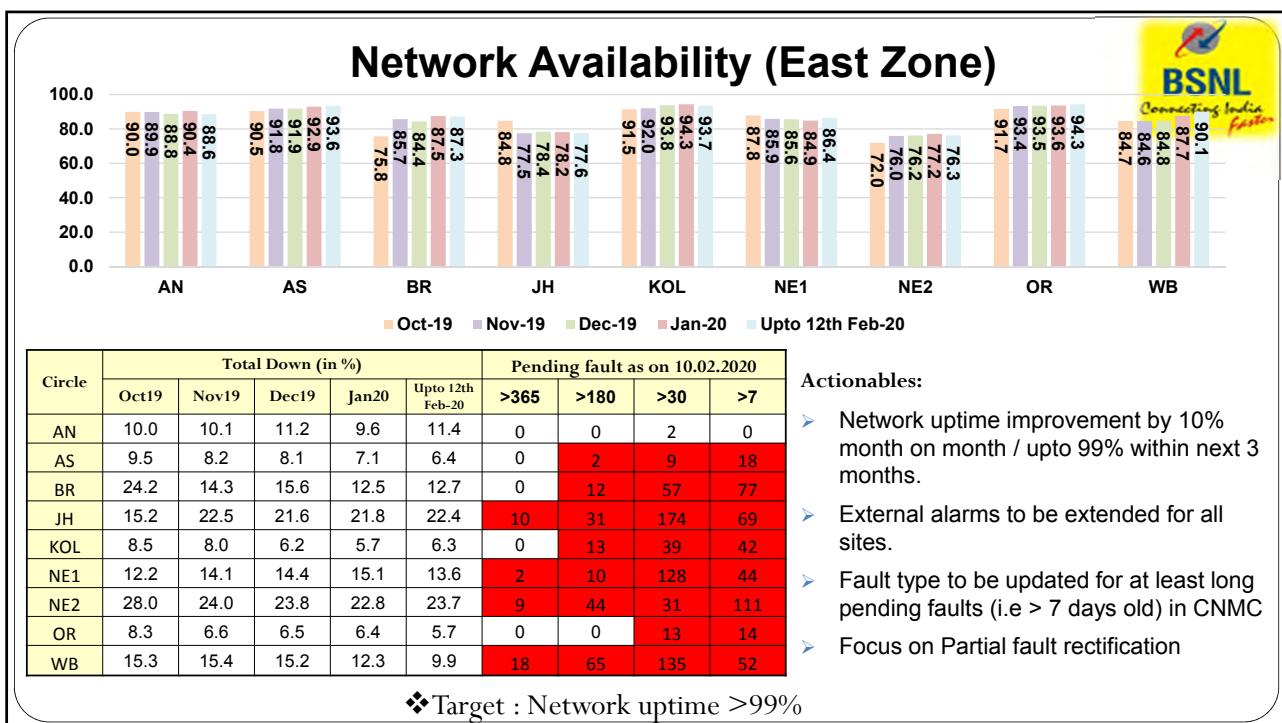

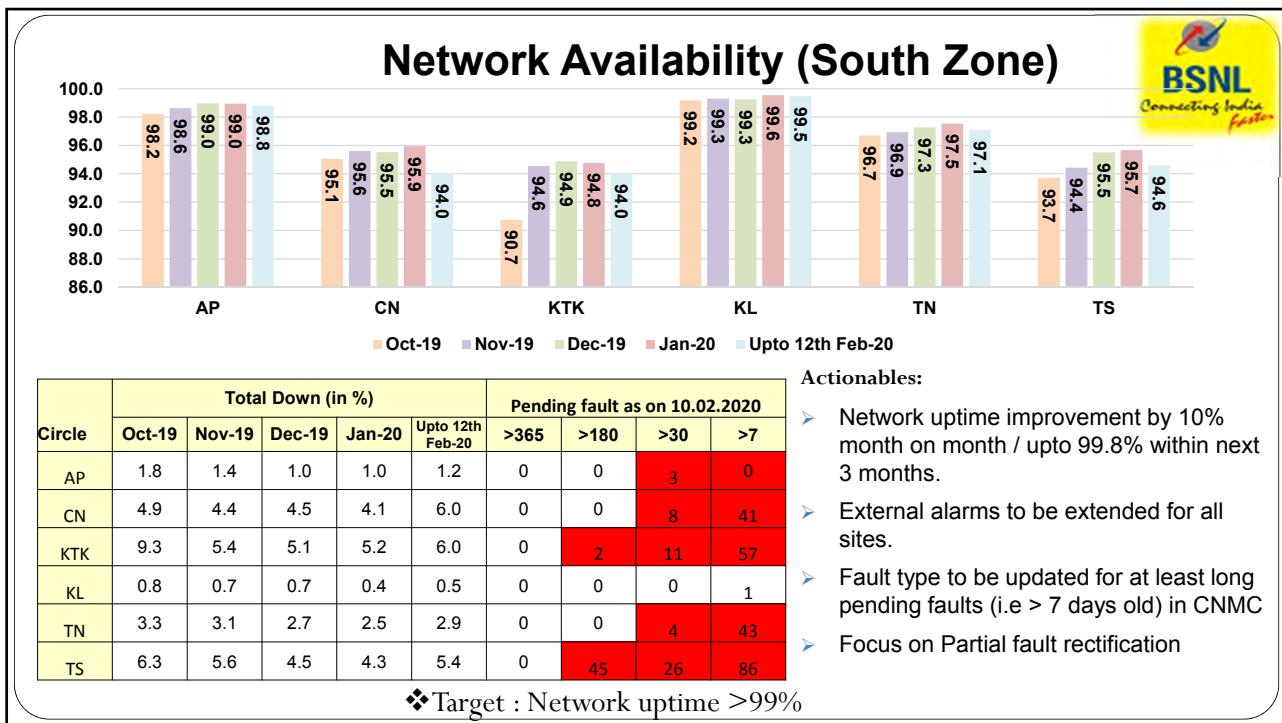

- Submission of on NEP by 31<sup>st</sup> march 2020.
- Punjab has completed failing which penalty to be imposed by TERM Cells.

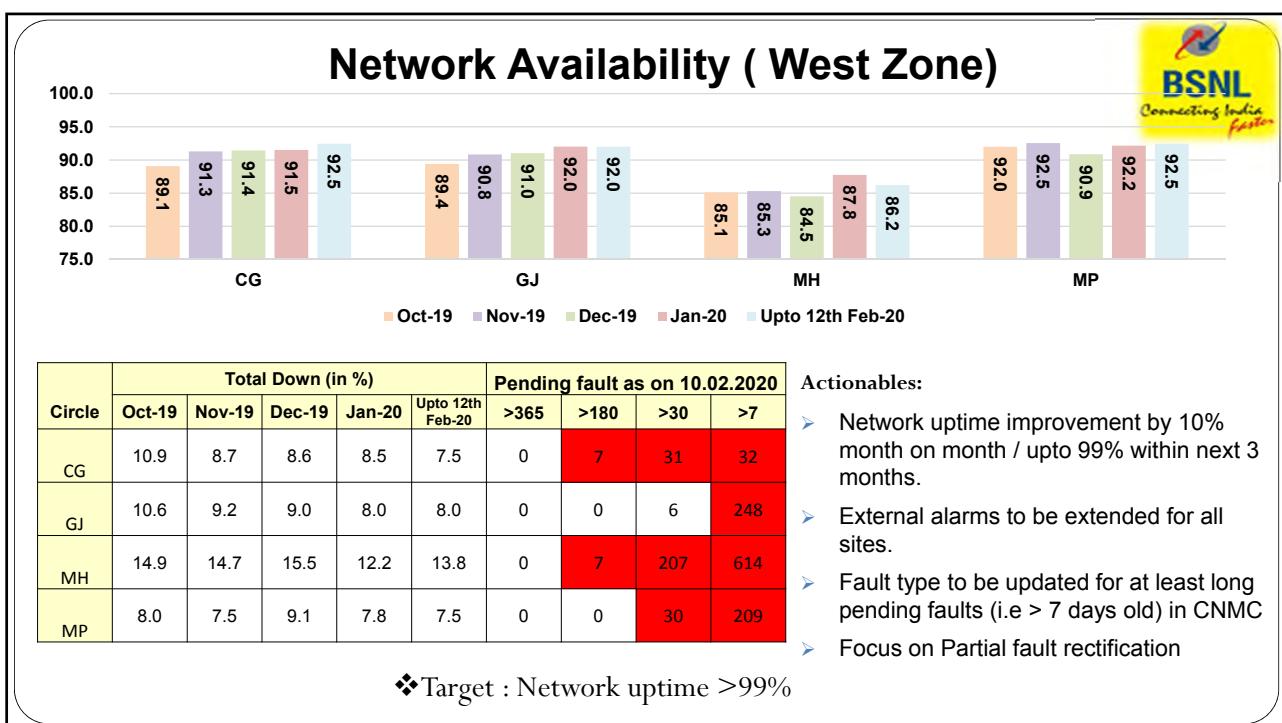

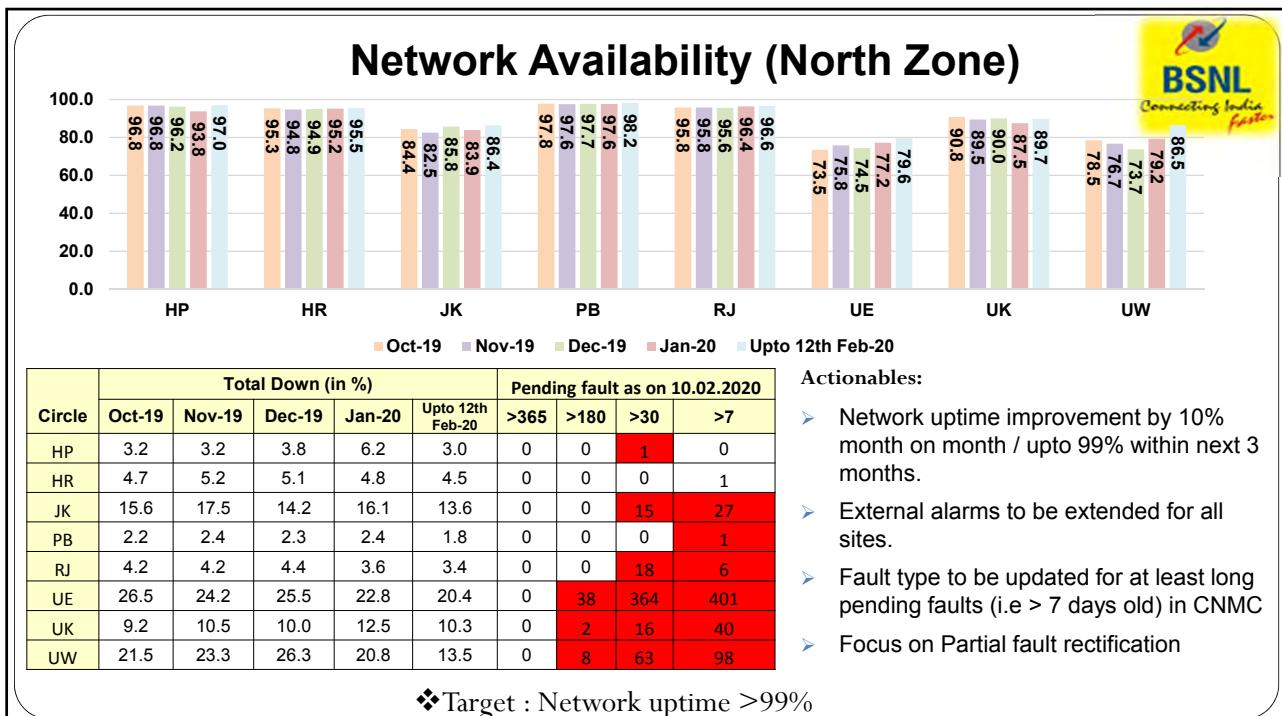

### **Steps to improve International Roaming**

- Ensuring availability of Auto latching IR SIM cards for 4G Customers. Accordingly profile details may be provided to vendors & ensure timely procurement.
- Newly launched Pre-paid Countries be publicized especially wherein discounted IOT has launched
- To enhance the International In Roaming Revenue, South Zone (through Tamilnadu) and west Zone (through Maharashtra Circle) are to perform In-Roaming International Roaming in Huawei, Alcatel & Nokia Switch.

## Relocation of Sites to save expenditure

Out of 21720 towers for about 8829 sites, the monthly expenditure (IP Fee and Energy Charge) is more than Rs. 45,000/- per site.

- Circles were requested vide letter number 61-20/2019-Infra Sales/Hired Sites dt. 04/2/2020 to examine each site considering
  - Revenue vis-à-vis expenditure
  - Technical requirement
  - Cost benefit analysis depending on remaining period as per the “Lock-in period clause under Exit Clause” of the MSA.
- Based on this analysis, non-viable sites may be either re-located or closed in order to reduce the expenditure.
- CMD, BSNL has desired that this exercise must be completed in a time bound manner latest by 7<sup>th</sup> March 2020 and report compliance.

## Number of IP sites where expenditure greater than Rs 45,000 per month

## Impact of VAS revenue on BSNL's Overall Revenue

- VAS is a service differentiation and is used as a Marketing Tool for Customer Retention rather than a mere revenue stream. Telco's are now offering unlimited content to their existing & new customers.
- VAS like PRBT, IVR, Cell Broadcast Services, Bulk SMS Push, Mobile TV, BSNL M-Wallet, SMS/WAP data type subscription based services are provisioned through VASPs
- Revenue 436 Cr (FY 2016-17), 463 Cr (FY 2017-18) and 613 Cr (FY 2018-19)
- VAS is a highly profit oriented business and operate on revenue share model , no CAPEX & OPEX.
- PRBT, IVRS, Bulk SMS Push & Cell Broadcast services are major contributors. Further opportunities exist to introduce new services and more revenue.

## Increase Market share by the way of content Delivery/Generation

- Bundled STVs :
  - I) UNLIMITED SONGS, 2.5 Lakh songs, are available with most of popular STVs with BSNL Tune Services as PRBT. Circle should promote this fact while promoting STVs.
  - II) Number of partnerships have been done for content delivery like Eros, Sony Liv, Hot star, Lokdhun etc Circle should promote this fact while promoting STVs.
  - III) Cell Broadcast based services, Online games and Mobile TV are also made available.
- Awareness of VAS product/services :

Circles to hold regular meetings with top VAS providers to explore more business in consumer and VAS segment.

## Opportunity of Revenue as Enterprise VAS

### Bulk push SMS:

- There has been significant increase in revenue of A2P SMS business. The service is generating annual Topline revenues in the tune of 430 Crores. The revenues can be further augmented through 3<sup>rd</sup> party SMSCs deployed/ in process of deployment in the Nodal Centres.
- But with revenues, the menace of fraudulent calls and messages has also emerged in a big way and this issue has been red-flagged by other sectoral regulators, like SEBI, RBI. TRAI is very particular of increase in Spamming and fraudulent messages through BSNL Network.
- Finally TRAI came up with TCCCP, 2018, specifying the use of DLT(Distributed Ledge Technology)- Blockchain technology to curb UCC menace
- M/s Tanla has developed Blockchain based DLT in BSNL.

## TCCCP (Telecom Commercial Communications Customer Preference Regulation)

- Circle/SSAs to on-board their Telemarketers, Entities, Headers and Templates on BSNL DLT system ([www.ucc-bsnl.co.in](http://www.ucc-bsnl.co.in))
- Guidelines and procedures for registration of Telemarketers, entities, headers & Templates have been issued by BSNL.
- TRAI issued Directions dated 20-01-2020 instructing all the TSPs to implement all the provisions of the regulation. The traffic should only be allowed through registered TMs, Entities, headers and the Templates registered. No traffic to be sent through unregistered headers/templates post 3<sup>rd</sup> Feb, 2020.
- All the Circles to expedite the registration at war footing level to avoid any loss of revenues to BSNL.

## Enterprise VAS: IoT and M2M

### IOT & M2M services

- Six vendors empanelled for providing IOT/M2M solutions to Enterprise customers:
  - M/s Sensorise, M/s VMukti, M/s Unlimit, M/s Aeris, M/s Atlanta and M/s Taisys
- Typical Use Cases: Vehicle tracking System, Automatic Meter Reading, Smart Garbage Collection, Asset Tracking System etc.
- 13 digit numbering compliance for M2M SIMs is mandatory.

## AIS 140 BSNL Backend for Vehicle Tracking System

- Ministry of Road Transport and Highways (MoRTH) has scheme for implementation of the statewise Vehicle Tracking Platform for Safety and Enforcement as per AIS 140 specification under Nirbhaya Fund. This scheme has potential to address more than 2 Crores of Public Service Vehicle registered on or after 1st Jan 2019. This scheme has project cost of about Rs. 346 Crores across India where 37 State/UT are categorized based on number of vehicle registered and geographical area.
- BSNL has been designated as Implementation Agency in addition NIC and DIMTS
- The M/s Sensorise alongwith BSNL EB teams are co-ordinating for this project. BSNL AIS 140 Complaint backend integrated with 'VAHAN' portal of MoRTH is working and about 6 Lakh Vehicles are registered in BSNL Backend across the country.
- BSNL will supply Soft e-SIMs profiles to VLT manufacturer who will purchase e-SIM for VLT device in the public Service vehicles. There are two major source of revenue for BSNL (i) Selling of E-SIM bulk subscriptions for AIS 140 M2M devices (ii) Provision of Tracking, Emergency, Registration etc services using AIS 140 compliant Portal.
- Multi Millions eSIMs PO's are expected with coordination with various state Government.

## AIS 140 VTS system: Status of Project

**Provisional Operator-wise Tower outstanding As on 31.01.2020**  
(Amt. in Rs. Cr.)

Operator-wise major outstanding (Amount in Crore)				
TTSL	RJIL	AIRTEL	Vodafone Idea Ltd.	TOTAL
20.46	101.55	84.43	73.08	279.52

**Reasons for accumulation of huge outstanding:**

- Non-adjustment of Energy/Fuel Bills directly paid by RJIL
- Billing dispute on technical ground e.g. FDD/TDD/Additional Technology/Technology advancement etc.
- Non-adjustment of Volume Discount/Credit Adjustment
- Dispute in Exit/Penalty Charges

## Corporate Office Initiatives

➤ **Decentralization of Powers:**

Circles authorized/ delegated with enhanced discounting powers (20% more) to participate aggressively in Tenders, to match competitor's tariff etc.

➤ **75% Bandwidth Utilization:**

- Units instructed for aggressive persuasion with customers to upgrade their Links.
- Total number of leased circuits including MPLS, ILL and P2P as on date – 2,84,126

➤ **Tariff Revision:**

- Introduction of HTS VSAT tariff , Short Duration Leasing for ILL/MPLS-VPN/P2P and Per Mbps Tariff for ILL.
- Multicasting service with aggressive tariff has been introduced. List of 1469 MSOs shared with circles.

➤ **M2M SIMs:**

- In collaboration with M/s Sensorise, BSNL is providing M2M SIMs to all major Auto manufacturing companies.
- Number of SIMs energized till date 4 Lacs with annual revenue of Rs. 2 Cr

Dated : February 17, 2020

**HoCC**

## Corporate Office Initiatives

**Fibre Monetization Policy:-**

➤ BSNL introduced the Policy for fibre monetization first time in November 2013, only for Cable TV Distribution Companies with a fixed tariff of Rs. 20,000/- per Km per annum per single core dark fibre.

➤ In order to give further boost, the policy was extended for Government License holder TSPs/ISPs/IPs/MSOs/LCOs at the same rate in October 2019 with provisions of further discounts depending upon volume of business, geographical locations, market competition etc.

**➤ EB Business since 2016-17 (as per EB Portal)**

FY	Dark Fibre Business (in Cr.)
2016-17	21
2017-18	31
2018-19	<b>124*</b>
2019-20	31

## Enterprise Business

## Important Points

Pre Sales (NAM/KAM level) teams to be created in each platinum unit to focus on grabbing business from new potential customers.

Proactive monitoring of MoU expiring - By approaching the customers well in advance, with new proposal.

Booking of business by forming consortium. Lead bidder concept Eg. Taxnet

Concept of **No TNF** using RF / FTTH policy / Bharat Net / Leasing in Fibre

Dedicated CRM teams for service delivery and assurance.

Due Importance to most valued customers. Dedicated NAM/ KAM Eg. SBI annual billing of Rs.270 Cr.

## EB-Finance

### **OBJECTIVES**

- MAXIMISING REVENUE AND COLLECTION
- COMPILED AND REPORTING OF EB REVENUE
- MONTHLY REVIEW OF ABF AND OUTSTANDING
- SETTLEMENT OF BILLING ACCOUNTING
- ACHIEVING EB REVENUE TARGET OF Rs. 4500 CRORES
- FACILITATING SPEEDY APPROVAL OF REVENUE GENERATING EB PROPOSALS

### **AREAS OF CONCERN**

- Huge cancellations
- Huge SLA deductions by Customers
- Delay in payment of Annual advance billing
- Stiff Competition and Pressure on Pricing
- Coordination with MTNL
- Payment to System Integrated Partners
- Slow growth of Inmarsat Business
- Nomination based Govt. business not coming

### **SUGGESTIONS**

- Locational Advantage needs to be exploited
- Prices to be quoted after proper due diligence and using proper market intelligence
- Recovery of 8 % License Fee and 15 % Margin must be ensured .
- One to One customer care executive for all EB customers responsible for all matters like field services, billing and commercial, SLA issues
- Circle-wise review of downtime, New Commissioning, Circuits pending in clarity and on hold circ
- Proper Use of Discount scheme for collection of old outstanding launched by Corporate office to maximize collection.

## Enterprise Business

### Issues raised by Circles

Difficulty in laying OFC Cables due to nonpayment of contractors' bills. Cases where OTC payment received also getting delayed – Separate OTC fund / separate EB account. - **CHN, BNG, PUN, MUM, HYD, NCR**

Service Issue due to Non payment of Vendors' / Contractors' Bills/ Electricity bills/. Negative publicity. - **CHN, MUM, PUN,**

SI and MNS partners may be allowed to open ESCROW accounts with BSNL to expedite link delivery processs. – **MUM, HYD**

Non availability of temporary advance, diesel, poor battery condition etc. for service delivery and service assurance. - **PUN**

Immediate arrangement required for restoration of faults and proper service assurance for retaining existing business / EB customers. - **PUN**

Dated : February 17, 2020

**HoCC**

## Enterprise Business

### Issues raised by Circles

Quick and timebound response from units in providing feasibility reports particularly in tender cases. – **HYD, NCR-II**

RF modems may be locally allowed on case to case basis. - **PUN**

RF/2G/3G/4G backup may be allowed free of cost. - **PUN**

24x7 proactive monitoring of leased circuits with service assurance by centralized call center by giving SMS alert, Email to valued EB customers and field maintenance team. – **PUN, NCR-I**

Power for waiver of customer owned R/F charges may be delegated to SSA Head as expenditure on RF is borne by customer for TNF cases due to BSNL. - **PUN**

PRI call rates shall be reduced, free calls worth shall include ISD calls. Unlimited calling plan should be introduced and call pooling facility at national level shall be made available. - **PUN**

Dated : February 17, 2020

**HoCC**

## Issues raised by Circles

Per Mbps uniform rates for MPLS / ILL / P2P - **MUM**

Multicasting Service – Relaxation of 10 Drop criteria to 5 drops and permission to give drops on PAN India basis. - **MUM**

IDC Service – BSNL pays 8% license fee on overall cost, so reducing the BSNL share from 19% to 11%. - **MUM**

Reduction of NAMs/KAMs strength post VRS - **CHN**

In addition to OLA taxi, OLA rental may also be provided to NAMs/KAMs for meeting customers located in the outskirts of the city. - **CHN**

One rental vehicle may be provided to each EB Unit for visiting restricted places (such as IGCAR, ISRO, Defence units) where Electronic Gadgets are not allowed which restricts the usage of OLA services. - **CHN**

Dated : February 17, 2020

### Presentation on BharatNet Project Phase-I

1

BSNL  
Connecting India

#### BharatNet Phase-I

Target to Complete the project by 31.03.2020  
(Status as on 11<sup>th</sup> Feb 2020)

Total Work front (GPs + Block HQ)	: 1,03,991 GPs
Duct laying completed	: 1,02,883 GPs (98.9%)
OFC laying completed	: 1,02,750 GPs (98.8%)
End-to-End connected on OFC	: 1,02,323 GPs (98.4%)
Service Ready GPs	: 1,02,175 GPs (98.3%)
GPs Lit	: 1,00,544 GPs (96.7%)

#### Duct Laying

Proposed: 2,46,456 Km  
Laid: 2,35,173 Km  
(95.4%)

Duct ATed: 2,25,699 Km  
(96%)

#### OFC Laying

Proposed: 2,54,328 Km  
Laid: 2,48,177 Km  
(97.6%)

OFC ATed: 2,41,304 Km  
(97.2%)

#### OLTs

4,181 OLTs installed  
3,501 OLTs ATed  
4,176 OLTs NOC Integrated

#### Blocks

Total 2,464  
Completed: 2,349  
(95.3%)

Action plan for Circles	
▪ 5% advance (85% to 90%) regarding completion of OFC AT is required from all Circles after verification of completed OFC AT by BBNL PMU.	
MP, Rajasthan & Punjab Circles have only submitted verified details.	
<b><u>All Circles are requested to send verified OFC AT details within a week.</u></b>	
▪ Making over-taking over of OFC Network for all Blocks is <b>to be completed by all the Circles by 31<sup>st</sup> March 2020.</b>	
▪ Capitalization of Completed Blocks is to be expedited (as per Annexure A & B) <b><u>to complete the project by 31<sup>st</sup> March 2020.</u></b>	
▪ <b>UPW:</b> Circle has <b>reduced work progress</b> of duct laid by 135 Km for 29 GPs and E to E GPs by 69 in Goggle drive without prior intimation. Work tenders for 12 GPs in Mathura & 25 GPs of Bareilly are yet to be finalised.	
▪ <b><u>All Circles are requested to update work progress regularly on Google drive (every Thursday) as report to DoT/BBNL is being sent on every Friday by BSNL CO.</u></b>	
▪ <b>West Bengal:</b> Progress is slow, Pending OFC AT is highest among all Circles and material reconciliation is still awaited. Also, BBNL has informed that Kolkata TD has used 300 Km of BBNL OFC for BSNL work.	
▪ <b>Sikkim:</b> Work stand-still. Major pendency 101 Km for 21 GP work is to be done by WBTC.

## BharatNet -II

### Scope of work :45,604 GPs - now reduced

EPC : 16,128 GPs, now the work is proposed to be carried out in PPP model.

Non EPC : 24,854 GPs, UP(W) & Sikkim is DPR is under approval. UP(E) & MP work is in progress. WB will be executed in Phase-I

Rajasthan, APO's to cancel and work closed

Satellite : 1,407 GPs: 1,256 feasible & surveyed

J & K: 3,215 GPs: State Govt. proposed to execute but work not taken from BSNL.

11

## Issues

- GIS mapping : Instructions issued to Circles to float tender and details given.
- Handing over and taking over of completed Blocks : Mail written to BBNL for taking over of completed Blocks within a week so that warranty can start and FLM can be implemented. Circles to ensure that GP's must be visible in NOC and all documents required are submitted.
- PLB is being manufactured by Telecom Factory. Circles may coordinate.
- UP(E) Circle has asked for guidelines/ instructions regarding custodian for equipments installed at GPs under Non-EPC : Circles to make over Blocks and take over for maintenance from the respective PMUs.
- The Circles are required to complete the commissioning of GPs as per targets by Dec.2020. Tender is being floated by CO for GPON & OFC. Meanwhile sufficient material is available to carry out the work.
- As installation of FDMS is not to be carried out by vendor in the new tender, parallel action to be taken to procure the required material like runway ,SCB etc.

15

**BSNL**  
*Connecting India*

## Status of Funds

- Advance received : Rs. 3165 Crs.
- EPC : Rs.420Crs.
- Non-EPC : Rs.2745 Crs.
- Adhoc additional advance for Non-EPC : Rs.770 Crs.
- Rs. 105 Crs. have been adjusted by submitting work orders of UP(E).
- In Feb the amount which will be adjusted is 70% of Rs. 93 Crs. against Work orders issued.
- Balance amount can be adjusted after placement of PO's of material for which tender is being floated.

## Directions of Government And Action Point

- ALL 1,25,000 GPs up and running by 31-3-2020.
- No OLT should remain down for more than 3 days by 29-2-2020.
- All OLTs should be available for 100% time by 31-3-2020.
- This means that all OFC faults in existing BSNL cable from OLT to FPOI should be attended by 31-3-2020.
- Further Infra at OLT locations should be up graded by 31-3-2020.
- CFA Cell has already authorized circles to procure Battery and Power Plants.
- FRTs should be formed to attend OFC faults, this activity will be funded by Fin-GP from money received from BBNL.

## Fin GP Cell: Actionable points by circles

- Final settlement claims are to be submitted to BBNL on priority basis for the blocks which are completed in all respects under Bharat Net Phase-I.
- O&M & Infra charges for BharatNet Phase-I:
  - Billing of O&M and Infra charges upto 1st quarter of F.Y. 2019-20 and follow up with BBNL PMUs for settlement of pending claims. The circles have also shared with Corporate Office the amounts that are still receivable at the end of Qtr-1 of F.Y.2019-20. i.e. Rs.275.16
  - Rs. 62.20 Crs is for Infra charges up to financial year ending 2019-20.
  - Sub-ledger report for NOFN O&M and Infra Charges are to be furnished regularly by due date.

# HEAD OF CIRCLES CONFERENCE

Core Network & Leased Circuits  
13<sup>th</sup> & 14<sup>th</sup> February 2020

## Payment Milestones in Work Execution Contracts

**Strict adherence to payment terms for DFC works execution:**

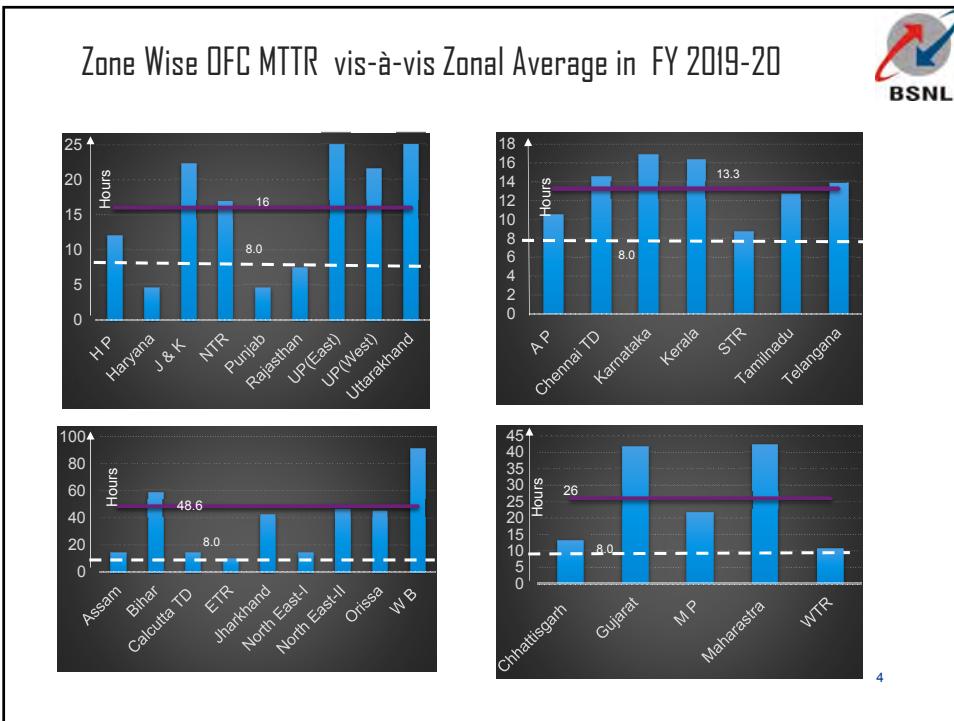

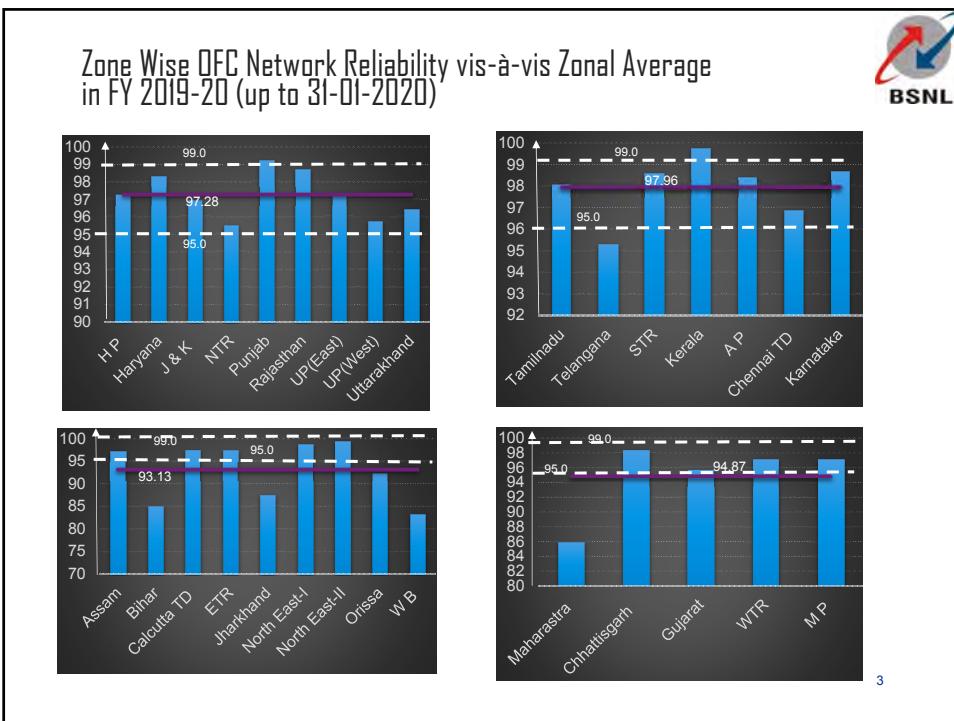

**The payments should be so defined that the work for which the payment is made is capable of being put to use.**

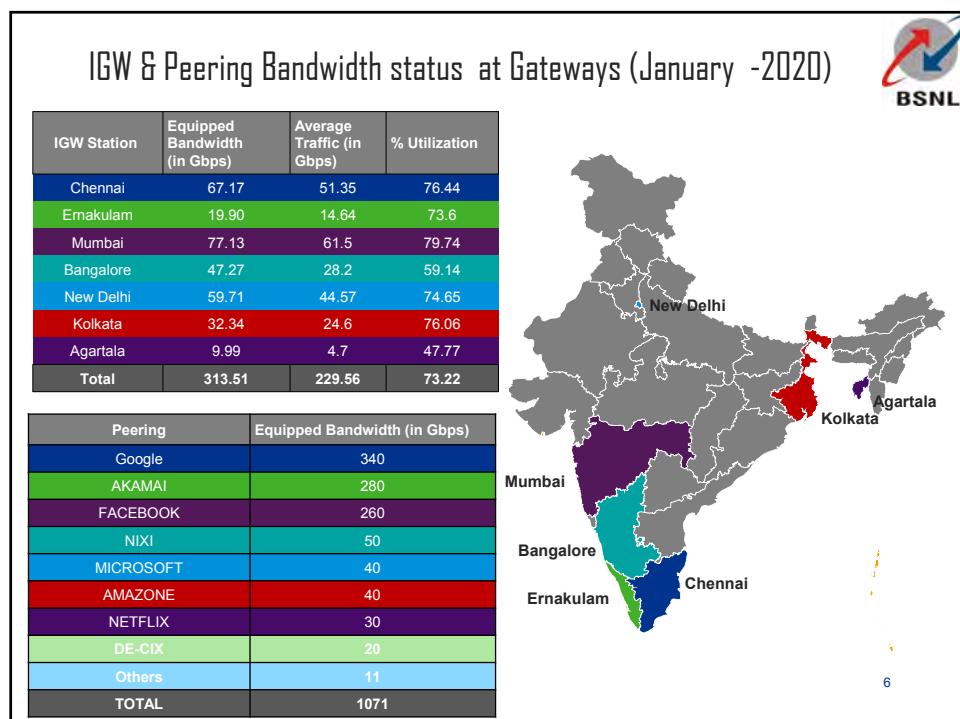

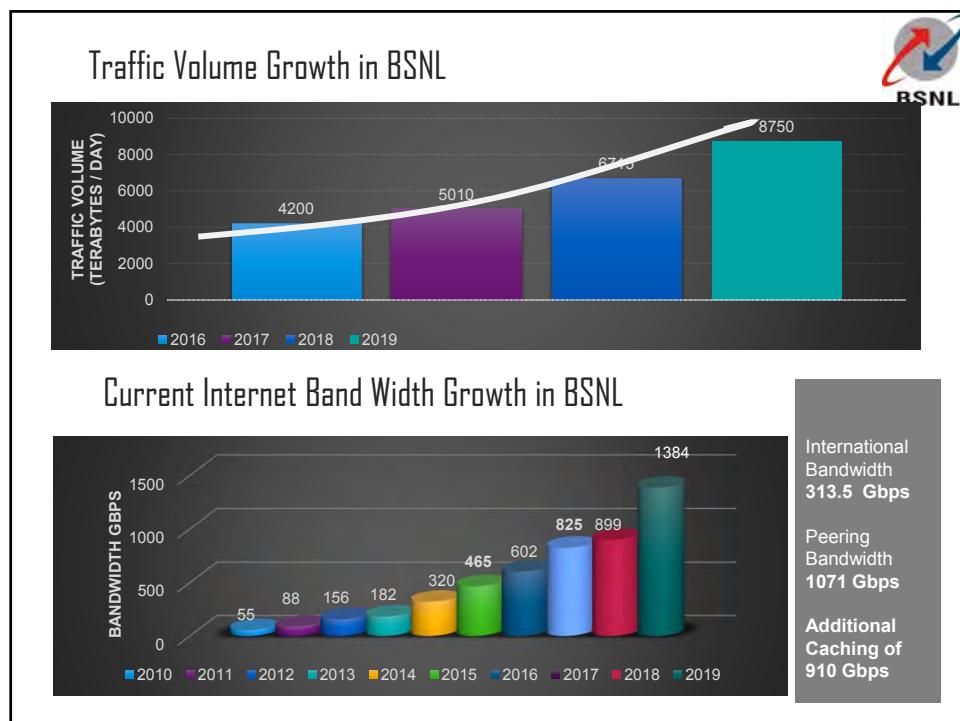

**The standardized tender document clause ( circulated vide letter no. CA/MMT/ID-9/2014/Pt.IV dated 30.11.2018 & available on Intranet under Material Management Section ) related to payment terms is re-iterated here as below:**

**All items of work involved in the work order shall be completed in all respects before preparing the bills for the work against the work order. The procedure for payment of bills is enumerated as under:**

- a. 100% full and final payment shall be processed after commissioning of complete route.
- b. However, if a section(s)( \*node to node) of the route has/have been completed in all respect and acceptance tested for making it capable of being put to use, 80% payment of the work so completed shall be made as a running bill, pending 20% to be paid after commissioning of complete route.

**\*node implies - Exchange/Transmission center/Broadband center/BTS site/any equipment center where DFC is terminated.**

## Core Network – Projects Status

S. No	Project / Item	Project Cost (Cr.)	Purpose	Brief	Status
1	IP-MLLN Project	552	Expansion of Leased Line Network	Internet Protocol based New Managed Leased Line Network for 1,20,000 modems & 5,000 Mux shall provide technology advantage higher bandwidth leased lines on copper , Band width on demand , improved QoS etc.	P.O. under approval
2	Radio-Modem for leased lines	80	Delivery of Leased Lines	7,000 new Radio Modems for providing Leased Circuits in areas not covered by Copper/Fibre	L1 qty (25%) supplied. L2 PO under approval.
3	48F OFC	180	Strengthening of OFC Network	25,000 Km 48 F OFC for Backhaul Routes	New Tender to be floated
4	24 F OFC New Tender	250	Strengthening of OFC Network	50,000 Km 24 F OFC for Access Network	New Tender to be floated
5	Expansion of existing OTN equipment (OTN Ph 3.1)	380	Expansion of Core Transport Network	85 number of fail safe Optical Transport Network Nodes with cross connect capacity of 1088 Tbps in mesh of 3-5 OFC routes	90% commissioned
6	OTN Phase-4	300	Expansion of Core Transport Network	330 nos of OTN nodes for providing 10G protected connectivity to Super Edge Routers at all DHQs	Under CET Financial Report Approval

## Core Network - Projects Status

S. No	Project / Item	Project Cost (Cr.)	Purpose	Brief	Status
7	Internet Protocol based MPLS Super Core Routers	200	Expansion of IP based Router Network	101 new Super Core routers planned with a capacity of ~265Tbps. Software Defined Network (SDN) for introduction of new services like Bandwidth on Demand / Network slicing / Segment Routing etc	Commissioning Under Progress
8	MPLS Super Edge Project	200	Expansion of IP based Router Network	High capacity 703 new Super Edge Routers extending MPLS cloud to all DHQ with a planned capacity of ~125Tbps	APO & PO for L1/L2 under process of approval.
9	Remote Fibre Test and Monitoring System	137	O&M of OFC Network	Remote Fibre Test and Monitoring System for Long Distance OFC Network for 400 number of nodes	APO under approval
10	Converged Packet Access Network (CPAN)	441	Expansion of Access & Aggregation Transport Network	Customer Premises/BTS/ enodeB 1Gbps CPAN nodes 31,000 nos in access network & High Capacity 10Gbps CPAN nodes 14,850 nos for aggregation network	Phase-I & II 95% completed. Add ON WIP, 50% completed.
11	IP-MPLS based CPAN expansion Project	200	Expansion of Access & Aggregation transport Network	Cloud based access network for end to end seamless connectivity for retail & enterprise customers	New Tender to be floated
12	Cyber Security	98	IT Security	Cyber Security at 11 nos. of IGW locations	APO under approval

## Upcoming Events requiring monitoring by the CGMs

- Merger plan of Maintenance Circles wef 01.04.2020
- Telecom Factories to be Merged with respective Territorial Circles (wef 01.02.2020)
- Training centres to be Merged with ALTTC, except for BRBRAITT with Maharashtra (wef 01.02.2020)
- 10 Months Audit to be completed in next month for Training Centres and Telecom Factories merged into Territorial circles.
- **CGMs need to ensure that the Branch Audit starts in the following week. Following is the schedule of Annual Closure for 2019-20:**

SI No	Particulars	Dates Fixed	Day of week
1	Appointment of Statutory & Branch Auditors	Done	
2	Completion of Internal Audit of accounts for F.Y. 2019-20 of all Circles & Corporate Office by Internal Auditor	15.04.2020	Wednesday
3	Commencement of Audit of the Annual Accounts of all Circles for F.Y. 2019-20 by the Branch Auditors	15.04.2020	Wednesday
4	Completion of Audit of Annual Accounts of Circle and preparation of Audit Reports by the Branch Auditors of the Circles	27.04.2020	Monday
5	Commencement of Audit of Consolidated Annual Accounts of BSNL by the Statutory Auditor at Corporate Office	01.05.2020	Friday
6	Completion of Audit of Consolidated Annual Accounts of BSNL and submission of draft Audit Report of BSNL by Statutory Auditor at Corporate Office and adoption of the same by the BSNL Board	22.05.2020	Friday
7	Submission of Annual Audited Accounts of BSNL and Audit Report of Statutory Auditor to C&AG (DG Audit P&T) for Supplementary Audit	29.05.2020	Friday

## Audit / Finance Control Points

### Capitalization of CWIP

- Capital Work in progress (CWIP) is not transferred to fixed assets when the asset is placed into service.
  - Analysis and minimization of aged CWIP and non/slow-moving Inventory
  - Timely Capitalization of overheads (Staff Cost and other exp) and Borrowing Cost
  - No timeline has been defined for Planning Section to share capitalisation data to Corporate Accounts Section.
- **Mitigation plan:** Monthly report should be sent by planning section by stating the status of all open CWIP.

### Disposal and Write off of Assets

- Accounting for Decommissioning of WiMAX / CDMA assets
- Intangibles where no future economic benefit is expected are recorded or are recorded in excess of the asset amount rather than as an other expense.
- **Mitigation plan:** Technical team should review the useful life of asset at year end to identify the intangibles where no future economic benefit is expected.

## Audit / Finance Control Points

### Depreciation

- Depreciation expense is:
  - Recorded at the incorrect amount, or for disposed assets, or using inappropriate useful life, rate or methodology, or omitted for some assets
  - Intangible assets are amortised using an inappropriate useful life.
  - CWIP is not transferred to fixed assets when the asset is placed into service and therefore is not depreciated.
- No review process of Asset Code Category and depreciation key, useful life at the time of creation as well as on monthly basis.
- No timeline has been defined for Planning Section to share capitalisation data to Corporate Accounts Section.
- **Mitigation plan:**
- *Monthly report should be sent by planning section by stating the status of all open CWIP.*
- *Review of Asset Code Category and depreciation key should be done on monthly basis to verify the correctness of Depreciable lives and methodology. (Especially before depreciation run).*

17

## Other important points

- **Expense / Liability Booking:** Vendor invoices received have to be reconciled with GSTR 2A on monthly basis. This will ensure completeness of accounting for purchases. Instruction issued in this regard to be complied at circle level.
- Circles need to take care of invoices booked but not collected as the GST is already paid on the same.
- Net Balance in Remittance Account is Rs. 1175 crore, 1037 crore and 138 crore for originating, responding and net respectively. Which is nowhere near the acceptable level. Circles need to review and clear the unsettled balance. [[Details Territorial](#), [Details Non-Territorial](#))
- Claim for Excess payment of LSPC contribution on account of leave taken by employees on deputation / foreign service in BSNL is still not raised by many circles despite continuous follow up. [ [Details of pendency](#) ]
- Reconciliation of Payable Receivables
- Contingent Liability reporting
- Circles have not reconciled their Leases as on 31<sup>st</sup> March 2019 with Leases accounted under Ind AS - 116. This needs to be completed urgently.
- Reconciliation of Sundry debtors with Billing System Sub Ledgers (SLR)
- The Nodal Circle raise Borrowing Cost ATs to other Circles, but fail to get that AT accepted by responding Circle. All unaccepted ATDs/ATCs are to be nullified by circles before finalization of accounts.
- Accounting for Prepaid Revenues

18

## Audit Qualifications Summary

Qualification Category	Qualifications Count	Primary Responsibility to address the qualification
Manage Fixed Assets & Current Assets -No Regular PV programme; No timely capitalization of CWIP; Identification of obsolete and damaged assets; Reconciliation of Land Deeds with FAR; Impairment of Assets; Inadequate Insurance;	13	Planning Wing
FSCP including disclosure -Lack of transition control from legacy to SAP; Maker check control	8	Corporate Accounts
Manage Revenue -SLR reconciliation; Credit Limit Monitoring; Prepaid Reconciliation; Construction contracts revenue booking; Advance income recognition	7	Vertical Finance
Manage Inventory & Stock -Receipt and issue of stock not recorded promptly in system	6	Planning Wing
Treasury, Investments, Cash & Bank -Inadequate control over cash accepted at counters	5	Treasury
Current Assets -Inadequate control over booking of liabilities and assets resulting in omission from booking	3	Finance and Planning
Revenue Assurance -EMD reconciliation	2	Nodal Centres and Vertical Finance
Manage Payroll -Control over advances to employees	2	HR and Finance
Statutory Compliances -Lack of defined risk controls for SSA	1	Finance and Planning
Manage Receivables -Balance Confirmation; Reconciliation with MTNL/Govt;	1	Vertical Finance
Manage Purchase to Pay -Reconciliation of clearing accounts; To record expense through vendor account only.	1	MM and Finance
<b>Total</b>	<b>49</b>	<b>19</b>

## License Fee related issues

- SUC Assessments are under process from FY 06-07
- Pending issues for the purpose of assessments :-
  - IUC disallowance including Intersegment Expenditures are pending with concerned CCAs. Circles have been instructed to contact with CCAs to ensure allowance of deduction
  - Some payments made by circles but not considered by CCAs and circle may submit the proofs for that.
  - Circle may request to CCAs for adjust the excess payment of one Spectrum with shortfall of others.
  - Total disallowance is Rs 7206 crore
  - Claims raised so far Rs 5832 crore

Deduction disallowance Claimed Top Circles:

## Finalisation of OPEX Budget for 2020-21

- OPEX budget utility has been developed in SAP/ERP.
- Procedure has already been circulated & available on Intranet.
- OPEX budget for (BE) 2020-21 has to be finalized before 15<sup>th</sup> March 2020. Accordingly,
  - BAs/SSAs has to upload data in Version 10 up to 17.02.2020.
  - Circle has to upload data in version 11 up to 22.02.2020.
  - Corporate office will upload duly approved budget in Version 9 by 15<sup>th</sup> march 2020.
- Any query/doubt regarding configuration in SAP should be addressed to:-
  - Mr. Mohd. Ilyas (Mob. 9415570500), Email id:- [ilaysrai@gmail.com](mailto:ilaysrai@gmail.com).
  - Mr. Rakesh Dawar (Mob. 9412220360), Email:- [rakesh.dawar@gmail.com](mailto:rakesh.dawar@gmail.com).

## CAPEX Budget for 2019-20

- ❑ Capex budget for 19-20 for Rs. 6725 Cr. was approved by CP&M. vertical wise breakup already given to respective CO Vertical.
  - ❑ The vertical/Nodal cell will allot Circle wise & project wise breakup of budget.

BUSINESS VERTICAL	NODAL/CELL	STATUS
CM	VAS INFRA	NOT RECEIVED NOT RECEIVED
EB	CNO	NOT RECEIVED
NB	NB-FIN TF CP&M T&D/QA USO-P	NOT RECEIVED NOT RECEIVED NOT RECEIVED NOT RECEIVED NOT RECEIVED

- ❑ Due to non-submission of Project wise/Circle-wise breakup updating of same in IM NODE is pending.
- ❑ Circles to ensure that allotment of budget in IM Nodes are taken and all WBS are reviewed for their Capitalisation in SAP.

## TAXATION

## E-Invoicing under GST

- E-invoicing is applicable w.e.f 01.04.2020 to B2B Invoices.
- Under e-invoicing system, an identification number (IRN) will be issued against every invoice by the Invoice Registration Portal (IRP) to be managed by the GST Network ([GSTN](#)).
- All invoice information will be transferred from this portal to GST portal and e-way bill portal in real-time.
- The invoice must conform to the e-invoice schema (standards) that is published and have the mandatory parameters.
- The softwares used for invoicing in BSNL viz. CDR, IOBAS, GSM, Mobicash, Leased Circuit, Online Recharge, SAP etc. to adopt new e-invoice standard wherein the data access and retrieval would be re-aligned to the standard format as per e-invoicing standardized schema which has mandatory, conditional mandatory and optional items.
- Generation of invoice data in a standard JSON format
- Reporting of e-invoice to a central system by creating an interface of their systems with IRP and pull the IRN after passing the relevant invoice information in JSON format.

# **LAND MONETISATION**

## APPROVAL OF UNION CABINET ON 23<sup>rd</sup> Oct 2019 FOR REVIVAL OF BSNL

- Monetization of land/building assets following DIPAM guidelines for asset monetization.
- The proceeds of asset monetization will be credited to BSNL to service the debt, CAPEX and other requirements, for which a separate dedicated account shall be opened by the Company.
- The progress of asset monetization will be reviewed by a committee formed under the Chairmanship of Pr.Advisor to Hon'ble Prime Minister with Cabinet Secretary, Secretary(DEA), Secretary(T), Secretary (DIPAM) and Secretary (MoHUA) as members.

## TARGETS FOR MONETIZATION

SN	FINANCIAL YEAR	TARGET
1	2019-20	Rs. 200 cr.
2	2020-21	Rs. 6000 cr.
3	2021-22	Rs. 8000 cr.
4	2022-23	Rs. 6000 cr
	<b>TOTAL</b>	<b>20,200 cr.</b>

## ROUTES FOR LAND MONETIZATION

### SALE THROUGH DIPAM

(Land can be sold to any buyer through open auction / bidding)

Identify plot → Board → DoT

↓  
Inter-Ministerial Group

↓  
Core Group of Secretaries

↓  
Alternate Mechanism (12 months)

↓  
Appointment of Consultants

↓  
Detailed Transaction process

↓  
Bidding & Approval by AM

### DIRECT SALE BY BSNL

(Land can be sold only to Central Govt. Departments / Statutory Authorities/ CPSUs)

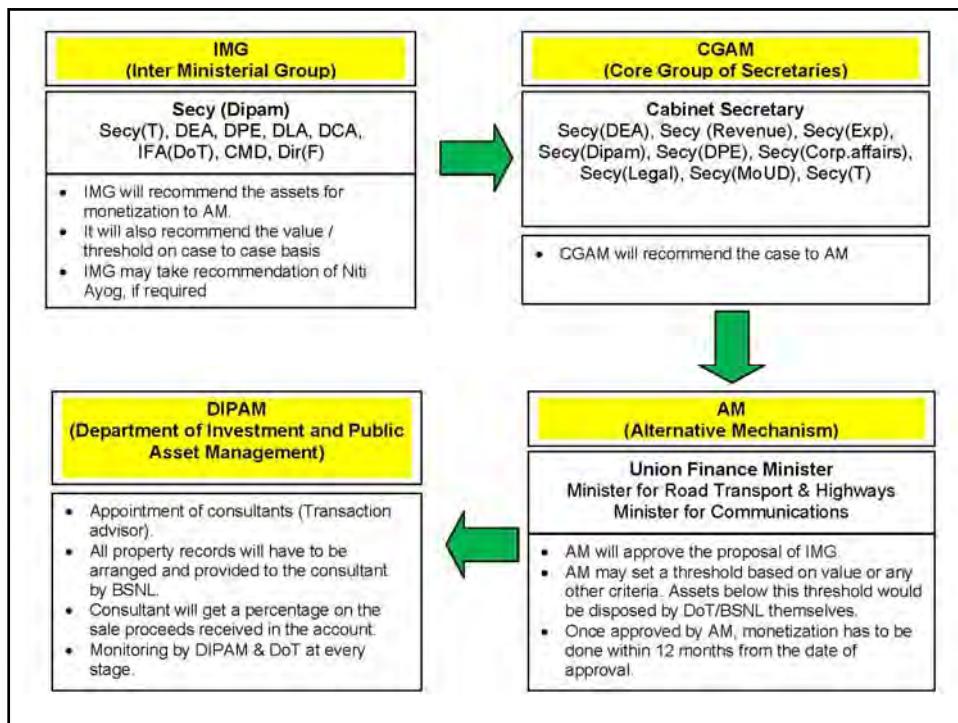

Identify plot

↓  
Decide mutually agreed value

↓  
Board Approval

↓  
DoT / Presidential Approval

↓  
Sale

## STATUS OF MONETIZATION THROUGH DIPAM

- 14 Properties were offered for Monetization in Phase-1, with estimated value of Rs.20160 cr. as per preliminary valuation.
- Resolution of BSNL Board obtained on 13<sup>th</sup> Nov, 2019.
- Presidential approval obtained on 13<sup>th</sup> Nov, 2019.
- Inter-Ministerial Group selected 11 lands for monetization on 24<sup>th</sup> Dec 2019
- Meeting of AM held in Jan, 2019 and approval for monetization of 11 lands issued on 24<sup>th</sup> Jan.
- Consultant being appointed by DIPAM.

## LIST OF 11 LANDS

<b>SN</b>	<b>Description of Asset</b>	<b>Sparable area (in acres)</b>	<b>Existing land use</b>	<b>Estimated Value (in Rs. Cr)</b>
<b>1</b>	RTTC, Gachibowli, Hyderabad	10.01	Public, Semi-Public facilities use	609.02
<b>2</b>	RTTC Rajpura, Punjab	19.65	Training centre and residential	111.39
<b>3</b>	Staff Qtr, Bhavnagar, Gujarat	5.59	Residential	40.75
<b>4</b>	Vysar Nagar, Chennai	29.72	Institutional & Residential	1651.49
<b>5</b>	Red Hills Road, Meenambedu, Ambattur, Chennai	4.69	Institutional & Residential	132.70
<b>6</b>	Telecom Factory, Wright Town Jabalpur, M.P.	69.04	Industrial & Residential	2336.74

## LIST OF 11 LANDS (CONTD.)

<b>SN</b>	<b>Description of Asset</b>	<b>Sparable area (in acres)</b>	<b>Existing land use</b>	<b>Estimated Value (in Rs. Cr)</b>
<b>7</b>	Juhu Wireless compound, Santacruz(W), Mumbai.	2.92	Offices and residential	979.03
<b>8</b>	Borivali, Mumbai	42.43	Offices and residential	5151.55

<b>10</b>	Wireless Compound at Gopalpur, West Bengal	45.14	Industrial	439.29
<b>11</b>	Madhyamgram, Kolkata	11.04	Institutional & Residential	302.87

## Action by circles for Monetization

- Basic details of 15062 lands available with BSNL have been compiled in an Excel file. However, the data is not updated and there are various errors in the data.
- This list shall be circulated on intranet. The circles are requested to intimate the lands which can be alienated without affecting the operations.
- Extensive efforts are to be made to compile original property records of every land. A separate file/folder may be made for each property containing its records.
- Under OSM, weeding of old records may be taken up and inspection of old almirahs/ storerooms etc. may be carried out, especially in the unit of AGM(Bldg)/ Estate officer.

## Action by circles for DIPAM route

- Once the AM approves an asset for monetization, it has to be completed within 12 months from the date of approval and this is the target to be achieved by the CPSEs as part of the MoU of DIPAM with DPE.
- Original documents & drawings of the 11 properties to be compiled for scrutiny by consultant.
- To coordinate with the Transaction Advisor (Consultant) appointed by DIPAM for sale of property.
- The consultant will only advice about the papers/ permissions to be arranged. BSNL will have to obtain it and supply to consultant.
- If the initial feasibility report is positive, action to be initiated simultaneously for vacating the spareable land, wherever required.
- **DoT has asked for another list of lands to be monetized in Phase-2 through DIPAM. Circles to intimate properties (preferably costing > Rs.50 crores each). The selected land should be free from encumbrance, legal cases and encroachment.**

## Action by circles for Direct Sale route

- Selection of all spareable properties at locations where market rates are close to the declared circle rates.
- Property papers of proposed land parcels to be compiled.
- No encumbrance certificate to be obtained from revenue authorities.
- There should be no legal cases or encroachments on the land.
- Intimate the details of all such land parcels to GM(Land Monetization), BSNL CO so that they can be offered to prospective buyer departments.

## RENTING POTENTIAL

- BSNL has 15062 land parcels all over India with a built-up space of about 10 cr. sqft.
- MTNL is earning a revenue of **Rs.320 cr.** per annum by renting office space in Delhi and Mumbai. (About 120 cr. in Delhi and 200 cr. in Mumbai)
- We have large cities like Kolkata, Chennai, Hyderabad, Bangalore etc. which have renting potential similar to Delhi & Mumbai
- Rental revenue of BSNL is as under –
  - 2016-17 : Rs. 78 cr.
  - 2017-18 : Rs. 92 cr.
  - 2018-19 : Rs. 115 cr.
  - 2019-20 : **Rs. 135 cr. (projected)**
- Consequent to VRS, substantial office space can be vacated by efficient planning.

## TOP 10 CIRCLES

SN	CIRCLE	RENTAL INCOME (in cr.)
1	Tamilnadu	21.62
2	Maharashtra	21.38
3	Karnataka	11.05
4	BRBRAITT	7.27
5	Chennai TD	7.20
6	Kerala	6.63
7	Gujarat	5.74
8	Rajashthan	4.15
9	Telangana	3.71
10	Punjab	3.12
<b>Total</b>		<b>91.87</b>

## Existing Rental Policy

- The policy for renting out vacant built up space in BSNL buildings was approved by MCB and issued vide no. 501-12/2012-BT dated 17.07.2012.
- From time to time, the policy was amended as per suggestions received from circles and as per requirements.
- **PERMISSIBLE TENANTS:**
  - Government Departments/ PSU's/ Govt. bodies
  - Scheduled banks (both public & pvt.) but excluding cooperative banks.
  - Reputed Private companies subject to turnover condition.
- **STANDING COMMITTEE FOR SCRUTINY OF CASES:**
  - Chief Engineer (Civil)
  - IFA to CGM
  - GM(Admn) / GM(Plg)
  - Concerned SSA Head or his nominee
  - Concerned SE (Civil)

## Main features of rental policy

- Buildings can be rented for upto a max. period of 10 years.
- The CGMs & SSA Heads have powers to approve renting of space upto a rental amount of Rs.10 lakhs and Rs.2 lakhs respectively per case per month.
- 1 month advance rent + 3 months rent as Security Deposit.
- Increase of rent @ 15% every 3 years
- CGMs are empowered to accept rent lower than that recommended by FRAC for recorded reasons. [2.A]
- Standing committee may alter the terms and conditions of Standard Lease agreement with the approval of approving authority, in consultation with legal wing of the circle. [5(viii)]
- The CGM is empowered to allow modification in the conditions of EOI, if required, due to local requirement. [5(iii)]

## CROP - 2020

We are in the process of coming out with a Comprehensive Renting Out Policy named CROP-2020 which will make the renting process further simple and streamlined.

## Way forward for renting business

- Targets to be distributed to all SSA heads for earning revenue through renting.
- Re-arrangement and consolidation of remaining employees to vacate precious office space for renting. This will also reduce the electricity/housekeeping expenses.
- Building with low attraction for tenant may be used for own offices and prime properties can be vacated for renting.
- OSM- Weeding out of old records, furniture, stores etc. to create renting space.
- Identification of space and publishing on website [rent.bsnl.co.in](http://rent.bsnl.co.in) along with contact details of authorized official.
- FRAC for each space to be conducted in advance.
- In-house teams be entrusted the responsibility of pursuing renting out of space to Government or Government controlled entities.

## Way forward.... (cont.)

- Rigorous persuasion and monitoring to be done at every level so that prospective tenant can get possession of space at the earliest.
- DO letters may be written to heads of local Govt offices, banks etc. informing them about the availability of space.
- In case of any query related to renting, SPOC at Corporate office level is as under –

**V.K.Gupta**  
GM(Land Monetization)  
Ph: 9013411108  
Email: [vkguptacivil@bsnl.co.in](mailto:vkguptacivil@bsnl.co.in)

- Any officer down to JTO level can directly contact the above telephonically or by mail regarding any query / problems related to renting.
- Suggestions for further modifications desired in the renting policy to achieve the targets can also be sent by email on the above address.

# **POST VRS MANAGEMENT**

# Revival Plan of BSNL Voluntary Retirement Scheme- 2019

## Head of Circles Conference

13 & 14, FEBRUARY 2020

### Implementation of BSNL Voluntary Retirement Scheme -2019

- BSNL introduced a Voluntary Retirement Scheme on 04.11.2019 . Closing date of exercising option was 03.12.2019.
- Total Eligible Employees / Options received for VRS:

	Group A	Group B	Group C	Group D	Industrial Workers	Total
Eligible	5584	11787	69821	15111	519	102822
Opted	4295	9010	54994	9936	334	78569
(%age)	76.9	76.4	78.8	65.8	64.4	76.4

- VRS Options were accepted by the competent authority and the above employees have retired voluntarily on 31.01.2020 under the scheme except for 199 death cases and 11 disciplinary cases and one VR case.

## Processing of Pension Papers through SAMPANN Portal of DOT

**Following steps are involved in processing of pension papers through SAMPANN:**

- **Verification of Service Book**
- **Send Form to Retiree**
- **Verification of the Form filled by Retiree**
- **Form 7 (calculation of Pension & Gratuity)**
- **Form 8 (Dues recoverable – not applicable in case of VRS)**
- **Send form to PAO / CCA**
- **Send physical form along with Service Book to CCA**

### **Pendency Status of SAMPANN (as on 13.02.2020):**

Circles	Sum of Total cases PPO not issued	Sum of Profile Stage	Sum of Pending at Retiree	Sum of Form Received	Sum of Form 7	Sum of Send to PAO	Total Cases received by CCAs	Total Cases at BSNL	% pending at first stage	% pending at Retiree	% pending at BSNL	Number of PPOs Generated	% PPO generated

## PROJECT OPERATION SAMUNDRA MANTHAN & PROJECT OJAS

HoCC Presentation on 13<sup>th</sup> & 14<sup>th</sup> Feb 2020

## PROJECT OSM

(LAUNCHED ON 01.04.2015)

2015-16	:	Rs.151 Cr.
2016-17	:	Rs.214 Cr.
2017-18	:	Rs.308 Cr.
2018-19	:	Rs.309 Cr.
2019-20 (up to Dec20)	:	Rs.203 Cr.

## OVERVIEW

1	A disposal of Rs. 203 Cr. (120.18%) has been realised till 31.12.19 against the proportionate target of Rs.169 Cr.
2	The South , North , East & West Zones have recorded the disposal performance of 137%, 135%, 108% and 101% respectively .
3	14 Circles viz. TEL, UPW, MH, MP, BH, NE-I, ETR, NTR, ALTTC, JHK, KOL-TD, ETP, OR & BRBRAITT have not achieved the assigned target .
4	Vertical wise WIP capitalization is required i.e. CFA ,CM & others.

## OVERVIEW

1	Saving as per ERP : Rs. 283Cr.(76.44%) (01.04.19 to 31.12.19) Proportionate Target : Rs. 370 Cr. (without including additional expenditure not adjusted in head of account for energy charges .)
2	Total expenditure : Rs. 1602 Cr. Actually Paid : Rs. 1213Cr. Outstanding Amount : Rs. 389 Cr.
3	Additional expenditure : Rs. 118 Cr. (Towards various parameters indicated in para 1 herein above compared with corresponding period for FY 2018-19)
4	North Zone : 111% , East Zone : 76% , West Zone : 61%, South Zone : 60%
5	11 Circles viz. I & QA, TF -MH, TF-KOL, TF-MP, NE-II, ETR, UPE, UPW, NE-I, HR & BH have exceeded their assigned target .

## PROJECT OJAS- ROADMAP

1	Implementation of in-house software for analyzing and scheduling the electricity bills for identification and corrective action .
2	Analysis of existing tariff for adoption of economical tariff from existing utility co. or any other alternate source of supply if available & Exploring the possibility for single window payment .
3	Review of demand and taking corrective action for disconnection, contract demand rationalization, closure of substation, downsizing of DG set etc.
4	Closure of DG sets from urban/rural Exchanges/BTSs having reliable power supply and providing one mobile DG sets for a group of 20 sites in urban and 10 sites in rural.
5	Power plant optimization by clubbing of multiple power plants, removal of defective power modules, reduction in power plant capacity etc.

Connecting India

## PROJECT OJAS- ROADMAP

6	Non-provision of BTS at un-electrified sites and closure of non-electrified BTSs wherever feasible.
7	Implementation of Turbo Ventilator for BTSs cooling by replacing air conditioners.
8	Closure/removal of air conditioners provided to the non-entitled officers.
9	Provisioning of renewable energy resources on RESCO model from Renewable Energy Service Cos. (RESCOs) without CAPEX from BSNL.
10	On-line monitoring of above parameters at corporate level for implementation and corrective action by the circles.
